1 Introduction

1.1 Resettlement Action Plan 4

Resettlement Action Plan (RAP) 4 focuses on the impact, compensation, restoration, relocation and mitigation of impacts from road construction (8B, 8b and 12), from the contractor's main camp and disturbances resulting from quarry activities at Phou Phathoung Quarry and its access road. The Social and Environmental aspects of RAP 4 fall within the responsibility of the Project Lands office of NTPC. Figure 1 and 2 depict the areas in which RAP 4 is found.

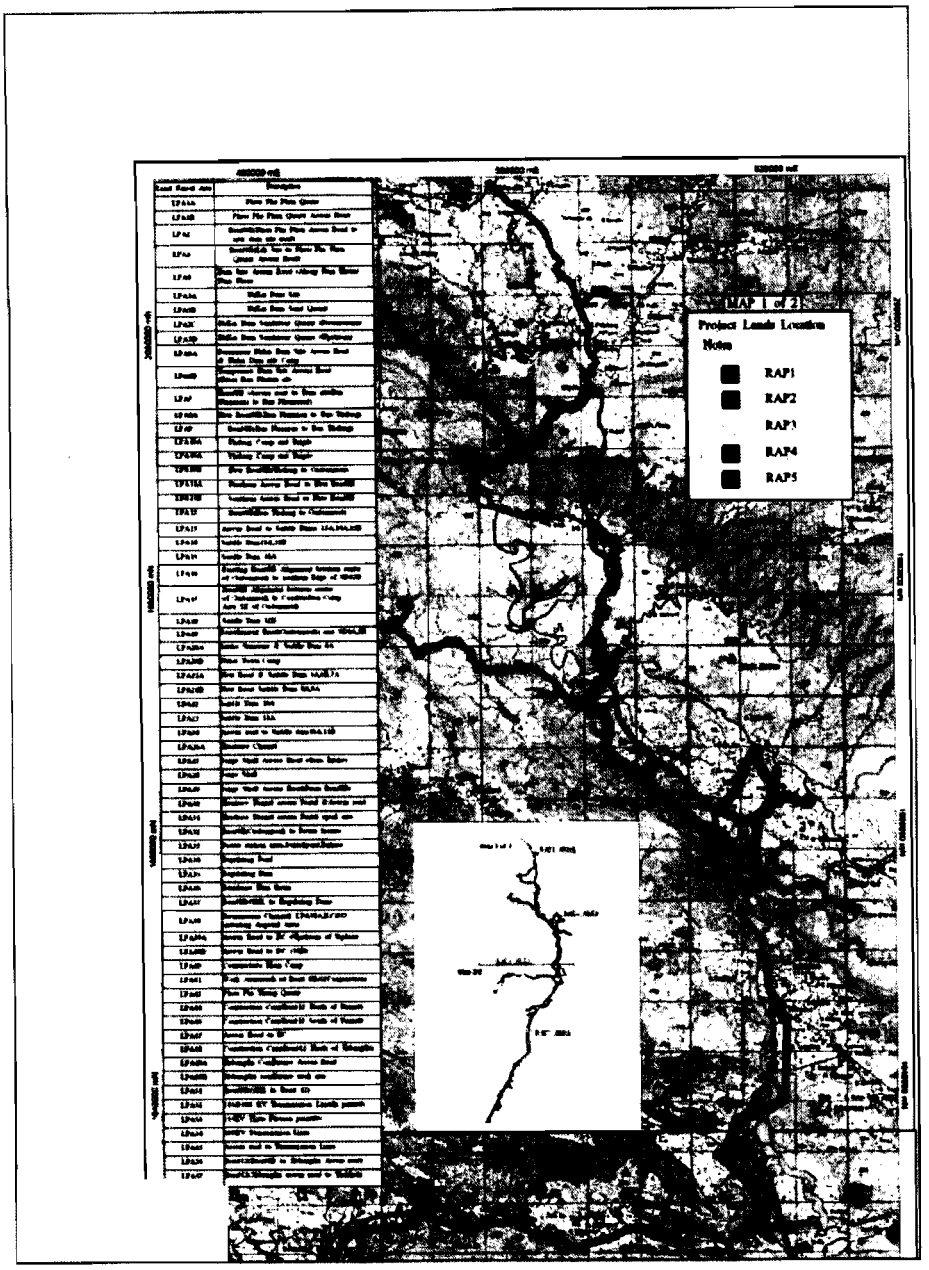

Figure 1. Project Land area

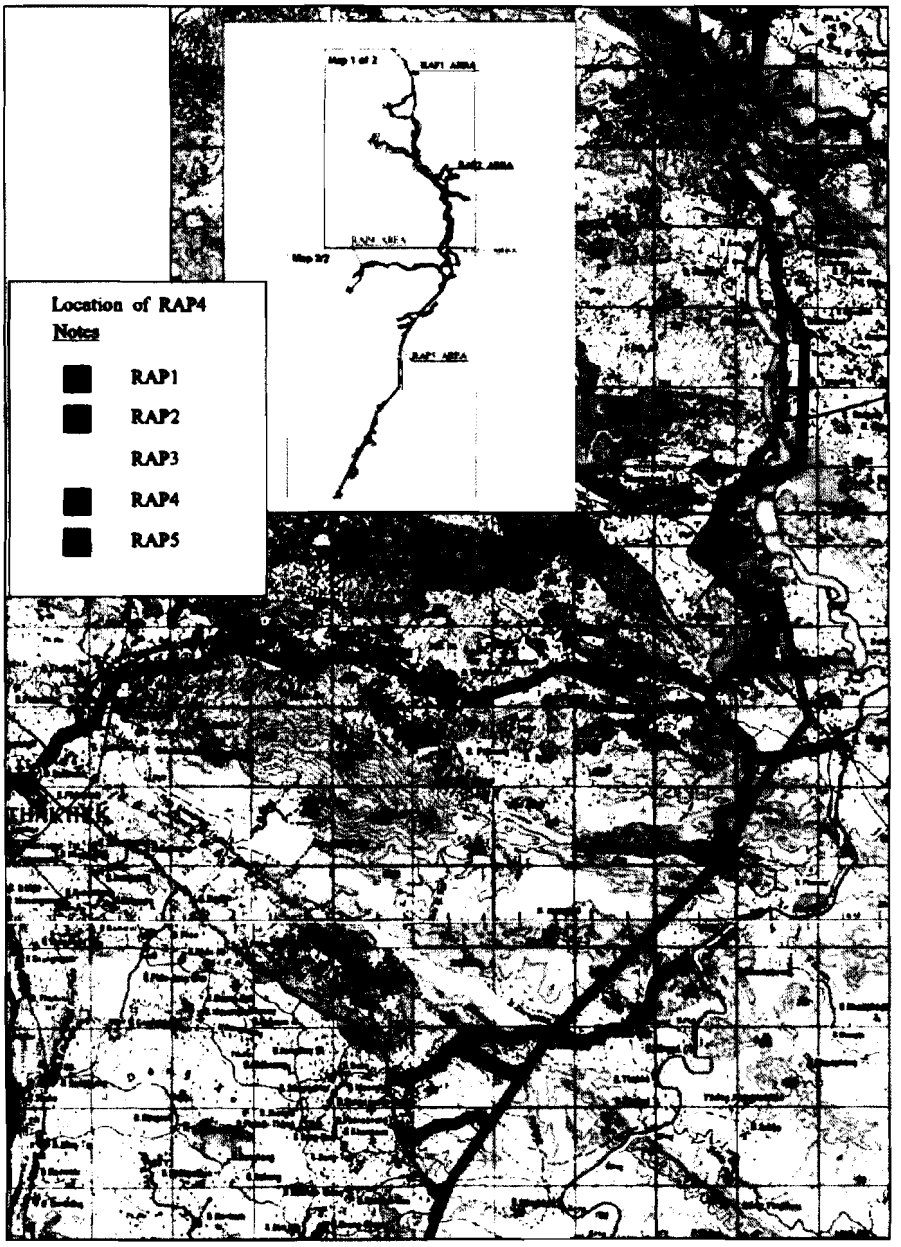

Figure 2. RAP 4 area coverage

1.1.1 Land Parcel Areas

As seen in Figure 1, the entire road traverses through Khammouane, through the districts of Gnommalath, Mahaxai and Thakek. Overall 45 villages are affected by the roads, quarry activities and main contractors camp activities. RAP 4 covers the following LPAs:

LPA	Name
37	Road 8B
42	Phou Phathoung Quarry & Access
51	Road 8b
56	Road 12
57	Road 12

Table 1. LPA number and area

1.2 Efforts to minimize resettlement/displacements

Efforts have been made to minimize the impact of Nam Theun 2 Project requirements. Modifications in design and land requirements have occurred since the design phase.

Road construction will include elevating many sections above pre-project levels to provide protection against flooding as well as to improve drainage. The newly elevated road surface requires access to adjacent houses, shops and tracks to be revised as well since without proper access provisions, motorbikes, power tillers and other vehicles may arrive at the top of the access ramp with high speed to overcome the steep ascent. As construction progresses, NTPC will review the Head Contractor's work to ensure that proper access is maintained to the road.

2 Compensation Policy and Scheme

2.1 Compensation Policy and Scheme

The compensation policy and scheme of RAP 4 follows the general rule of compensation for lost infrastructure as explained in Volume 1.

Nevertheless, none of the PAHs are entitled to compensation, as affected land is located within an 80m corridor (National Road no. 12) and a 60m corridor (Road no. 8b and 8B), occupation of which, according to Lao law, is illegal. IFI policy on the other hand, requires further payments to be made.

Discussions are presently ongoing between GOL and the IFIs regarding cash compensation for PAHs above the disturbance allowance that all PAHs have already been provided with and to which GOL has agreed. Updates regarding this discussion will be available in monthly reports.

3 Project affected Household

3.1 Baseline

Baseline information was gathered to assess the extent of the impact and identify potential PAHs within the affected area. All baseline information regarding RAP 4 is found in Volume 4 of the SDP.

3.2 Consultation process

Following the baseline data gathering, consultations were held with the PAHs. This activity was led by the District Working Group and the Village Chief. The DWG and the Village Chief, together with the PAH would verify the list of expected impacts.

3.3 Project Affected Households

There are 1,368 PAHs within RAP 4 (Table 2). All PAHs found in RAP 4 are not significantly affected by the project as determined by the baseline and consultations described above..

LPA	Area	No. of affected households <10%
37	Road 8B	137
42	Phou Phathoung Quarry & Access	119
51	Road 8b	173
56	Road 12	258
57	Road 12	681
Total		**1,368**

Table 2. PAH list per LPA

3.4 Impact and Mitigation measures

There are different types of impacts expected from RAP 4 as seen in Table 3:

Name	Description	Disturbance	Social impact	Social mitigation measures
Road 8B	Approximately 5 km of the existing Road 8B alignment, to be upgraded between the Gnommalath District center and the Regulating Dam	Selective widening, resurfacing and installation of drainage structures for existing Road 8B alignment	Disrupted access along existing Road 8B Increased dust due to operation of heavy traffic Possibly temporary and permanent loss of some land and asset	Road diversion and upgrading Heavy equipment fitted with silencers dust suppression Compensation for any loss or disturbances
Phou Phathoung Quarry & Access	Project aggregate source for the areas downstream of the Power houses, including downstream channel; facilities will include an access route, and processing and storage facilities	Loss of land and amenity as a result of additional construction activities	Noise and dust due to blasting, processing and aggregate and traffic of haulage trucks Permanent loss of land Permanent loss of fisheries Permanent loss of domestic water supply	Heavy equipment fitted with silencers dust suppression Compensation for loss of land and fisheries Provision of new water supply
Road 8b	Encompasses appr. 5 km of the existing route 8b alignment	Some areas/stretches may require selective widening; road will be resurfaced and drainage structures installed		
Road 12	Road 8b – Xe Bang Fai Access			
Road 12	Xe Bang Fai Access - Thakhek
