Section I – Basic Information

Date ISDS Prepared/Updated:

***A. Basic Project Data** (from PDS)*

COUNTRY: Dominica, Grenada, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines	PROJECT ID: P076822
PROJECT: Emergency Recovery and Security Enhancement Program	TTL: Arnaud Guinard/Ali Khadr
APPRAISAL DATE: January 2002	IBRD AMOUNT ($m): 12.55
BOARD DATE: February 2002	IDA AMOUNT ($m): 7.55
MANAGING UNIT: LCSFU	SECTOR: FPSI
LENDING INSTRUMENTS: Emergency Recovery Loan (ERL)	STATUS: Lending

Project Objectives (From PDS)

In support of the above program, Bank assistance will consist of individual lending operations to the Bank's OECS borrowing members of Dominica, Grenada, St. Kitts, St. Lucia and St. Vincent focusing mainly on enhancement of airport and seaport security, and financing of critical imports. Antigua, will be supported through a separate project from CDB. The development objectives of the five Bank operations (hereafter called "projects") will be: (i) to help safeguard and maintain the productive capacity of their tourist sectors in the aftermath of the September 11 terrorist attacks in the U.S; (ii) to enhance security at key airport and seaport facilities in line with emerging international standards with the aim of preventing further acts of terrorism and safeguarding the sub-region's image as a safe tourist destination; and (iii) to strengthen the countries' institutional capacity to adopt, develop and implement security plans, procedures and measures as mandated by international civil aviation and maritime transport regulatory agencies.

Project Description (From PDS)

The Bank operations will be implemented over a period of approximately three years and will finance the following components:

Component 1: Critical Imports (US$6.0 million)

This component would finance one critical import, low sulfur diesel fuel for electricity generation, which is critical to maintain economic activity in the tourism industry. The inclusion of this sole import is based on an assessment of each country's monthly import bill and review of satisfactory procurement practices.

Component 2: Airport and Seaport Security Enhancement (US$15.5 million)

This component would finance the physical and technical resources necessary for national port and aviation authorities, as well as individual air and seaports, to upgrade security arrangements at key facilities and meet relevant international regulations. It would include: (a) civil works to upgrade perimeter fencing and ensure secure access to key facilities; (b) equipment, including communication, passenger and luggage screening and identification (badge) systems; and (c) technical assistance and training to develop and implement security programs, emergency and contingency plans at airports and ports, crisis management, passenger and luggage screening, etc. in line with emerging international security regulations.

Component 3: Implementation Support (US$0.9 million)

This component would finance technical assistance and additional operating costs which the existing Project Coordinating Units will may require for project management and implementation.

Project Location: (Geographic location, information about the key environmental and social characteristics of the area and population likely to be affected, and proximity to any protected areas, or sites or critical natural habitats, or any other culturally or socially sensitive areas.)

Airport and Seaport facilities in the respective countries.

Section II – Key Safeguard Issues and Their Management

D. Summary of Key Safeguard Issues. Please fill in all relevant questions. If information is not available, describe steps to be taken to obtain necessary data.

1. Describe any safeguard issues and impacts associated with the proposed project

2. Identify and describe any potential large scale, significant and/or irreversible impacts. Describe any potential cumulative or long term impacts.

3. In light of 1 and 2, describe the proposed treatment of alternatives (if required)

4. Describe arrangement for the borrower to address safeguard issues

5. Identify the key stakeholders and describe the mechanisms for consultation and disclosure on safeguard policies, with an emphasis on potentially affected people.

E. Safeguards Classification (select one). Category is determined by the highest impact in any policy. Or on basis of cumulative impacts from multiple safeguards. Whenever an individual safeguard policy is triggered the provisions of that policy apply.

[ ] S_1. – Significant, cumulative and/or irreversible impacts; or significant technical and institutional risks in management of one or more safeguard areas

[ ] S_2. – One or more safeguard policies are triggered, but effects are limited in their impact and are technically and institutionally manageable

[X] S_3. – No safeguard issues

[ ] S_F – Financial intermediary projects, social development funds, community driven development or similar projects which require a safeguard framework or programmatic approach to address safeguard issues.
