# Project Information Document (PID)

Appraisal Stage | Date Prepared/Updated: 16-Oct-2023 | Report No: PIDA0176

**BASIC INFORMATION**

**A. Basic Project Data**

Project Beneficiary(ies) Africa, Burkina Faso, Burkina Faso, Chad, Chad, Ghana, Ghana, Mali, Mali, Niger, Niger, Senegal, Senegal, Sierra Leone, Sierra Leone, Togo, Togo	Region  WESTERN AND CENTRAL AFRICA	Operation ID  P180244	Operation Name  WEST AFRICA FOOD SYSTEM RESILIENCE PROGRAM (FSRP) PHASE 3
Financing Instrument Investment Project Financing (IPF)	Estimated Appraisal Date 31-Oct-2023	Estimated Approval Date 26-Jan-2024	Practice Area (Lead) Agriculture and Food
Borrower(s)  Ministry of Finance and Budget	Implementing Agency Prime Ministry, Ministry of Sport, Ministry of Livestock and Animal Production, Ministry of Industry and Small and Medium Industry, Ministry of Agriculture, Rural Equipment and Food Sovereignty		

Proposed Development Objective(s)

To increase preparedness against food insecurity and improve the resilience of food systems in Senegal

**Components**

- Regional Food Market Integration and Trade
- Contingent Emergency Response
- Sustainability and Adaptive Capacity of the Food System’s Productive Base
- Digital Advisory Services for Agriculture and Food Crisis Prevention and Management
- Project Management

**PROJECT FINANCING DATA (US\$, Millions)**

**Maximizing Finance for Development**

Is this an MFD-Enabling Project (MFD-EP)? Yes

Is this project Private Capital Enabling (PCE)? Yes

SUMMARY

Total Operation Cost	266.00
Total Financing	266.00
of which IBRD/IDA	200.00
Financing Gap	0.00

DETAILS

World Bank Group Financing

International Development Association (IDA)	200.00
IDA Credit	200.00

Non-World Bank Group Financing

Counterpart Funding	36.00
Local Beneficiaries	36.00
Other Sources	30.00
International Fund for Agriculture Development	30.00

Environmental And Social Risk Classification

Substantial

Decision

The review did authorize the team to appraise and negotiate

Other Decision (as needed)

B. Introduction and Context

Country Context

Sectoral and Institutional Context

**C. Proposed Development Objective(s)**

**Note to Task Team:** The PDO has been pre-populated from the datasheet for the first time for your convenience. Please keep it up to date whenever it is changed in the datasheet. *Delete this note when finalizing the document.*

Development Objective(s) (From PAD)

To increase preparedness against food insecurity and improve the resilience of food systems in Senegal

Key Results

**D. Project Description**

**Note to Task Team:** The following sections are system generated and changes must be made in Data Sheet(s). *Delete this note when finalizing the document.*

Legal Operational Policies

Triggered?

Projects on International Waterways OP 7.50

Yes

Projects in Disputed Area OP 7.60

No

Summary of Screening of Environmental and Social Risks and Impacts

**Note to Task Team:** This summary section is downloaded from the PAD data sheet and is editable. It should match the text provided by E&S specialist. If it is revised after the initial download the task team must manually update the summary in this section. *Delete this note when finalizing the document.*

Key environmental risks include generic risks associated with civil work and the exploitation of the proposed infrastructure, such as the loss of vegetation cover, disturbance of wildlife, increase of greenhouse gas emissions (GHG), ground and surface water pollution, soil degradation and pollution associated with waste management (i.e., building/construction wastes, e-waste, waste from veterinary medicine, and e-waste). Key social risks include potential for elite capture and the exclusion of vulnerable groups and individuals (i.e., women, persons with disabilities, pastoralists, etc.), economic and/or physical displacement, risks of sexual exploitation and abuse and sexual harassment (SEA/SH), poor working conditions, child and forced labor, as well as security risks for activities conducted in the region of Casamance. Other environmental and social risks include occupational and community health and safety risks, nuisances related to noise and vibration, as well as the transmission of communicable diseases. As the scope and exact sites of the infrastructure works and technical assistance activities are not yet defined, a framework approach has been adopted to provide guidance on the preparation of the various instruments. The PCUs have prepared a consolidated an Environmental and Social Management Framework (ESMF), a Stakeholder Engagement Plan (SEP), a Resettlement Framework (RF), Labor Management Procedures (LMP), an Integrated Pest Management Plan (IPMP), and a Plan for the Prevention, Mitigation and Management of SEA/SH. Finally, the Borrower has also prepared an Environmental and Social Commitment Plan (ESCP) with the support of the WB. The ESCP includes the commitment to prepare the site-specific Environmental and Social Management Plans (ESMPs) and Environmental and Social Impact Assessments (ESIAs), as well as capacity-building activities in environmental and social (E&S) risk management. The ESMF includes: an exclusion list; procedures for E&S screening of future infrastructure subprojects; a screening tool to identify ESS5 impacts; E&S management planning processes for addressing negative externalities in the course of project implementation; a system for monitoring the implementation of mitigation measures; a CERC-ESMF Addendum; E&S risk management capacity building measures; a grievance mechanism with guidance on the reception, recording, handling, and reporting of complaints; and an estimated budget. Additionally, the ESMF is in line with sector-specific (for agribusiness/food production) WB environmental health and safety guidelines (EHSGs) and best industry practices. The ESCP and SEP will be disclosed prior to appraisal. All the other instruments highlighted above (the ESMF, the IPMP, the LMP, the RF, the SEP and the ESCP) will be disclosed in-country and on the World Bank websites prior to the end of appraisal.

**Note:** To view the Environmental and Social Risks and Impacts, refer to the Appraisal Stage ESRS Document. *Delete this note when finalizing the document.*

## E. Implementation

### Institutional and Implementation Arrangements

**Note to Task Team:** The following sections are system generated and changes must be made in Data Sheet(s). *Delete this note when finalizing the document.*
