Republic of Tunisia
Digital Transformation for User-Centric Public Services (P168425)

ENVIRONMENTAL and SOCIAL COMMITMENT PLAN (ESCP)

[23/04/2019]
1. The Republic of Tunisia (the Borrower) is planning to implement the Digital Transformation for User-Centric Public Services Project (the Project), with the involvement of the following Ministries/agencies/units: Ministry of Technology, Communication and Digital Economy (MTCDE). The International Bank for Reconstruction and Development hereinafter the Bank has agreed to provide financing for the Project.

2. The Borrower will implement material measures and actions so that the Project is implemented in accordance with the World Bank Environmental and Social Standards (ESSs). This Environmental and Social Commitment Plan (ESCP) sets out a summary of the material measures and actions.

3. Where the ESCP refers to specific plans or other documents, whether they have already been prepared or are to be developed, the ESCP requires compliance with all provisions of such plans or other documents. In particular, the ESCP requires compliance with the provisions set out in the Project’s Stakeholder Engagement Plan (SEP), the Environmental and Social Management Framework (ESMF), the Resettlement policy Framework (RPF) and Labor Management Procedures (LMP) developed by MTCDE, and the Environmental and social Management Plans (ESMPs), Resettlement Action Plans (RAPs) to be developed by MTCDE and Labor Management Plans (LMPs) to be prepared by contractors before any commencement of works.

4. The table below summarizes the material measures and actions that are required as well as the timing of the material measures and actions. The Borrower is responsible for compliance with all requirements of the ESCP even when implementation of specific measures and actions is conducted by the MTCDE referenced in 1. above.

5. Implementation of the material measures and actions set out in this ESCP will be monitored and reported to the Bank by the Borrower as required by the ESCP and the conditions of the legal agreement, and the Bank will monitor and assess progress and completion of the material measures and actions throughout implementation of the Project.

6. As agreed by the Bank and the Borrower, this ESCP may be revised from time to time during Project implementation, to reflect adaptive management of Project changes and unforeseen circumstances or in response to assessment of Project performance conducted under the ESCP itself. In such circumstances, The Borrower will agree to the changes with the Bank and will update the ESCP to reflect such changes. Agreement on changes to the ESCP will be documented through the exchange of letters signed between the Bank and the Borrower. The Borrower will promptly disclose the updated ESCP. Depending on the project, the ESCP may also specify the funding necessary for completion of a measure or action.

7. Where Project changes, unforeseen circumstances, or Project performance result in changes to the risks and impacts during Project implementation, the Borrower shall provide additional funds, if needed, to implement actions and measures to address such risks and impacts.
