SCHEDULE 1

Project Description

The objective of the Project is to improve household welfare and strengthen economic growth in Market Centers and surrounding rural areas within the Project Area through the provision of core infrastructure services.

The Project consists of the following parts, subject to such modifications thereof as the Recipient and the Association may agree upon from time to time to achieve such objectives:

Part A: Electrification

Expansion of direct and indirect access to electricity services to consumers through: (a) the planning and construction of power supply facilities, including but not limited to transmission and distribution lines, poles, transformers, meters, house wiring, and public lighting; and (b) carrying out of related studies, all through the provision of goods, works, and technical advisory services.

Part B: Information and Communications Technology (ICT)

1. Provision of grants to eligible private sector participants for the implementation of Subprojects.

2. Improving the regulatory framework for rural access to ICT and the institutional capacity of MACRA to run universal access programs through the provision of technical advisory services, including studies.

Part C: Water Supply and Sanitation

1. Planning and construction of water and sanitation facilities, including but not limited to source and treatment works, transmission mains, storage tanks, distribution pipes, public standpipes, individual connections, latrines and septic tanks, through the provision of goods, works and technical advisory services; and

2. Establishment and training of Water User Associations and local water operators to oversee the planning, construction and maintenance of the water and sanitation facilities, through the provision of technical advisory services.
Part D: Roads

1. Rehabilitation and periodic maintenance of secondary and tertiary roads;
2. Construction and periodic maintenance of feeder roads; and
3. Provision of technical advisory services to assist the Recipient in road construction and rehabilitation, including undertaking related studies and training of contractors.

Part E: Institutional Strengthening, Capacity Building, Environmental and Social Management, and Project Management

1. Provision of technical advisory services and training to the Key Implementing Entities, Participating Agencies and private sector participants to strengthen their technical and Project implementation capacity in areas including Project management, monitoring and evaluation, environmental and social management, and technical design and standards.

2. Provision of technical advisory services and training to the PMU and Operating Costs to the PMU and other Project Implementing Entities to strengthen their operational capacity to coordinate, monitor and supervise the implementation of the Project, including carrying out of studies.
SCHEDULE 2
Project Execution

Section I. Subsidiary Agreement; Institutional Arrangements

1. Subsidiary Agreement

(a) To facilitate the carrying out of each Project Implementing Entity’s Respective Part of the Project, the Recipient shall enter into a Subsidiary Agreement between the Recipient and each Project Implementing Entity under terms and conditions approved by the Association including: (i) a provision requiring the Project Implementing Entity to implement its Respective Part of the Project in accordance with the terms of the Financing Agreement; (ii) a provision requiring the Project Implementing Entity to ensure that it is represented on the Project Task Force throughout Project implementation; (iii) a provision requiring that the Project Implementing Entity liaise as necessary during Project implementation with the other Key Implementing Entities, the PMU and the Participating Agencies; and (iv) a provision requiring the Project Implementing Entity to comply with all environmental and social safeguards as provided in the Environmental and Social Management Framework and the Resettlement Policy Framework.

(b) The Recipient shall exercise its rights under each Subsidiary Agreement in such manner as to protect the interests of the Recipient and the Association and to accomplish the purposes of the Financing. Except as the Association shall otherwise agree, the Recipient shall not assign, amend or waive the Subsidiary Agreement or any of its provisions.

2. Steering Committee

(a) Composition. The Recipient shall maintain, at all times until the completion of the Project, a Steering Committee, under the chairmanship of the Principal Secretary of the MEP&D with a composition that is satisfactory to the Association. Without limitation to the generality of the foregoing, the Steering Committee will consist of representatives of the following ministries: MEP&D, the Ministry of Finance, the Ministry of Mines, Natural Resources and Environment, the Ministry of Transport and Public Works, the Ministry of Information and Tourism, Ministry of Irrigation and Water Development, and the Ministry of Local Government and Rural Development.
(b) **Role.** The Steering Committee shall be responsible for coordination of the implementation of the integrated infrastructure packages, including environmental and social management, and their linkage to the promotion of economic activities in the Project Area.

3. **Project Task Force**

(a) **Composition.** The Recipient shall maintain at all times until the completion of the Project a Project Task Force with a composition that is satisfactory to the Association. Without limitation to the generality of the foregoing, the said Task Force shall include senior sectoral technical specialists from the Key Implementing Entities.

(b) **Role.** The Project Task Force shall be responsible for providing technical sectoral inputs required for coordination of Project implementation.

4. **Key Implementing Entities and Participating Agencies**

Without limitation to the provisions of Section 4.01 and Section 4.03 of the General Conditions, the Recipient shall ensure that competent staff are assigned to work on the Project in both the Key Implementing Entities and the Participating Agencies. The designated staff in the Key Implementing Entities should include persons competent in procurement, financial management, and sectoral planning and technical matters who shall be responsible for undertaking these tasks with respect to their Respective Parts of the Project. The Key Implementing Entities shall liaise, as necessary, with the Participating Agencies and the Project Task Force.

5. **MEP&D**

MEP&D is responsible for the overall coordination of the Project. MEP&D will be in charge of project accounting, disbursements, reporting, scheduling, and monitoring and evaluation and all aspects of implementation of Part E of the Project. MEP&D is also responsible for the PMU, which reports to MEP&D.

6. **PMU**

(a) Without limitation to the provisions of paragraph 3 of this Section, the Recipient shall, throughout Project implementation, maintain the PMU adequately staffed with persons with terms of reference, qualifications and experience that are satisfactory to the Association including a Project manager, an engineer with procurement expertise, and at least one accountant and one accounts assistant.
(b) Without limitation to the provisions of paragraph 2 (a) of this Section, the PMU shall be responsible for the overall Project coordination among the Key Implementing Entities and the Participating Agencies, financial management, monitoring and evaluation, procurement planning, environmental and social management in accordance with the ESMF and RPF, and progress reporting under the Project. For the avoidance of doubt, the PMU’s role with respect to procurement shall be limited to: (i) procurement planning and scheduling to ensure that the sectoral Key Implementing Entities follow the agreed Procurement Plan; (ii) procurement under Part E of the Project; (iii) coordinating technical aspects of implementation with the technical specialists within the sectoral Key Implementing Entities; and (iv) liaising between the Key Implementing Entities and the Office of the Director of Public Procurement.

Section II  Implementation Arrangements

1. Project Implementation Plan

The Recipient shall carry out the Project in accordance with the PIP provided, however, that in case of any conflict between the PIP and the provisions of this Agreement, the provisions of this Agreement shall prevail. Except as the Association shall otherwise agree, the Recipient shall not amend, abrogate or waive any provision of the PIP, if such amendment, abrogation or waiver may, in the opinion of the Association, materially or adversely affect the implementation of the Project.

2. Environmental and social safeguards

(a) The Recipient shall carry out the Project in accordance with the Environmental and Social Management Framework and the Resettlement Policy Framework and, wherever applicable, prepare and implement Resettlement Action Plans and Environmental Management Plans.

(b) The Recipient shall not amend or waive, or permit to be amended or waived, the ESMF, RPF, EMP and RAP, or any provision thereof, in a manner which, in the opinion of the Association, may materially and adversely affect the implementation of the Project.

(c) The Recipient shall ensure that: (i) all measures for carrying out the recommendations of the ESMF, RPF, EMP and RAP are taken in a timely manner; and (ii) the Project Reports referred to in Part A of Section III of this Schedule include adequate information on monitoring the measures defined in the said ESMF, RPF, EMP and RAP.
(d) The Recipient shall ensure that the Environmental Affairs Department of the Ministry of Mines, Natural Resources and Environment provides such assistance as may be required by the Key Implementing Entities in the course of Project implementation.

3. Other

(a) The proceeds of the Financing shall not be transferred into the Road Fund.

(b) The Recipient undertakes to construct a 33 kV electricity transmission line within the Rumphi-Nyika-Chitipa corridor to allow for the construction of low voltage distribution networks financed by the Project in the Project Area.

(c) The Recipient undertakes to ensure that water supply and sanitation facilities are designed and managed to recover recurrent, minor replacement, and part of major replacement and expansion costs from beneficiaries.

Section III. Project Monitoring, Reporting, and Evaluation

A. Project Reports

1. (a) The Recipient shall monitor and evaluate the progress of the Project and prepare Project Reports in accordance with the provisions of Section 4.08 of the General Conditions and on the basis of the indicators set forth below in sub-paragraph (b) of this paragraph. Each Project Report shall cover the period of six months, commencing from the Effective Date, and shall be furnished to the Association not later than one month after the end of the period covered by such report.

(b) The performance indicators referred to above in sub-paragraph (a), which shall be measured within the Project Area, consist of the following:

(1) Electrification:

(i) Number of Market Centers connected to the electric grid;

(ii) Number of households, public institutions, business enterprises, street lighting and water pumps connected to the electricity supply in each Market Center; and

(iii) Proportion of population having access to electricity.
(2) **Information and Communications Technology:**

(i) Number of new telephones, new public telephone kiosks, Internet connections, and multi-purpose community telecenters; and

(ii) Improved institutional capacity of MACRA to run ICT universal access programs and implementation of improved regulatory framework for rural access to ICT.

(3) **Water supply and sanitation:**

(i) Number of Market Centers with improved water and sanitation services (water production serving current population, plus well-functioning Water User Association and utility operator);

(ii) Number of households, public institutions and business enterprises with access to reliable water and sanitation services; and

(iii) Proportion of population with improved water and sanitation services.

(4) **Roads:**

(i) Kilometers of secondary and tertiary roads rehabilitated and maintained;

(ii) Kilometers of feeder roads rehabilitated and constructed;

(iii) Amount spent annually on routine road maintenance out of the Road Fund;

(iv) Improved quality of roads due to maintenance as measured by the annual road condition survey; and

(v) Proportion of population living within two kilometers of an all-season road, to be measured at the beginning and the end of the Project.
Planning, monitoring and evaluation of infrastructure development:

(i) Planned Project investments are implemented and monitored according to the agreed timetable;

(ii) Number of Market Centers screened for environmental and social impacts; and

(iii) Annual consultation on business opportunities.

Without limitation to the generality of sub-paragraph (a) above, the Recipient shall carry out jointly with the Association on or about November 1, 2008, a comprehensive mid-term review to assess the status of Project implementation, including but not limited to the Project’s institutional arrangements, implementation progress, performance indicators, achievement of Project objectives, Category Grant allocations, Project resource allocations, and environmental and social management. The Recipient shall not later than one month before such review prepare and furnish to the Association a report in scope and detail satisfactory to the Association for purposes of such review.

B. Financial Management, Financial Reports and Audits

1. The Recipient shall maintain or cause to be maintained a financial management system in accordance with the provisions of Section 4.09 of the General Conditions.

2. Without limitation on the provisions of Part A of this Section, the Recipient shall prepare and furnish to the Association not later than one month after the end of each calendar quarter from the Effective Date, interim un-audited financial reports for the Project covering the quarter, in form and substance satisfactory to the Association.

3. The Recipient shall have its Financial Statements audited in accordance with the provisions of Section 4.09 (b) of the General Conditions. Each audit of the Financial Statements shall cover the period of one fiscal year of the Recipient, commencing with the fiscal year in which the first withdrawal under the first Project Preparation Advance was made. The audited Financial Statements for each such period shall be furnished to the Association not later than six months after the end of such period.
Section IV. Procurement

A. General

1. **Goods and Works.** All goods and works required for the Project shall be procured in accordance with the requirements set forth or referred to in Section I of the Procurement Guidelines, and with the provisions of this Section.

2. **Consultants’ Services.** All consultants’ services required for the Project shall be procured in accordance with the requirements set forth or referred to in Sections I and IV of the Consultant Guidelines, and with the provisions of this Section.

3. **Definitions.** The capitalized terms used below in this Section to describe particular procurement methods or methods of review by the Association of particular contracts, refer to the corresponding method described in the Procurement Guidelines, or Consultant Guidelines, as the case may be.

B. Particular Methods of Procurement of Goods and Works

1. **International Competitive Bidding.** Except as otherwise provided in paragraph 2 below, goods and works shall be procured under contracts awarded on the basis of International Competitive Bidding.

2. **Other Methods of Procurement of Goods and Works.** The following table specifies the methods of procurement, other than International Competitive Bidding, which may be used for goods and works. The Procurement Plan shall specify the circumstances under which such methods may be used:
