## Social Inclusion

Despite overall progress in poverty reduction in Rajasthan, many social groups have been left behind. Scheduled Tribes and Scheduled Castes in particular continue to lag behind in schooling and salaried jobs. Scheduled Tribes stand out not only for the slow pace of poverty reduction among this group, but also for high open defecation rates and poor access to drinking water.

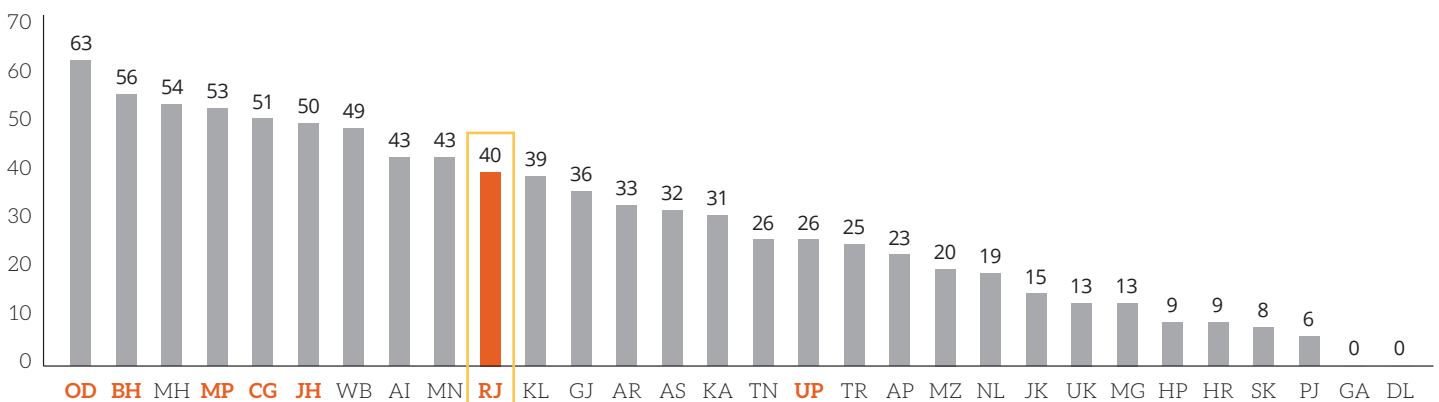

### Higher poverty rate and slower poverty reduction for the Scheduled Tribes in Rajasthan

Households by Social Group, 2012 (%)		
	All India	Rajasthan
Scheduled Tribe	9	15
Scheduled Caste	19	20
Other Backward Caste	43	46
General	29	19

### Poverty among the Scheduled Tribes in Rajasthan is lower than in other Low Income States

ST population below the poverty line, 2012 (%)

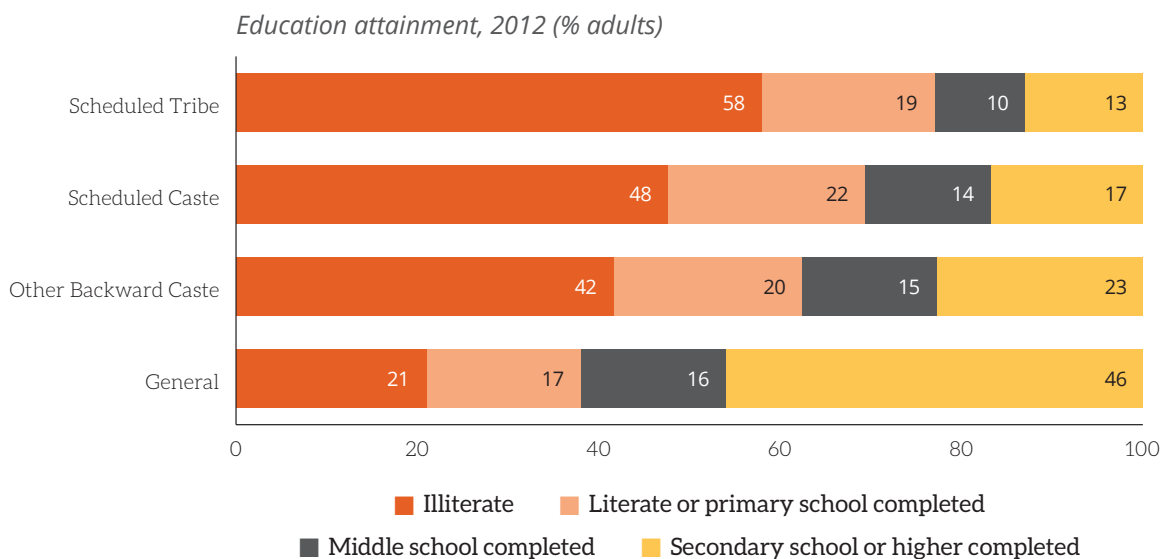

Low Income States are highlighted in orange, AI is All India.
