Index

Page numbers followed by n. and a number refer to numbered notes. Page numbers followed by t or f refer to tables or figures, respectively. Page numbers in italic refer to boxed text.

A

Africa
See Central Africa; East Africa; Southern Africa; West Africa

B

Bolivia, 19
Border crossing time
causes of delay, 18–19
as determinant of transport costs, 63, 75, 76–77, 81
opportunity costs of delays, 75
policy reform options in East Africa, 94
policy reform options in Southern Africa, 94
recommendations for East and Southern Africa, 9, 9n, 10t, 105
reductions in, projected impact on transport costs of, 90, 93, 94, 95
trucking company perceptions, 86–87
Brazil, 14
Bribes, as transport cost factor, 64, 69, 70

C

Cartels
as cause of oversupply, 6, 55, 58–59
definition, 12 n.6, 60 n.1
fleet size and, 59–60
market conditions and formation of, 12 n.5
as obstacles to improving transport performance, 5, 6, 55, 90–91
reform recommendations, 105
as transport price factor, 38, 47, 55
Central Africa
benefits of road rehabilitation, 83
countries of analysis, 3
determinants of transport costs, 63, 64
fleet characteristics, 6, 8, 55
freight allocation system, 5–6, 54–55
operating costs, 7, 64, 69–70
policy reform options, 89, 90–93
profit and markup in transport sector, 6, 41
quality of transport services, 32
rail transport competition, 38–39, 39
recommendations for transport policies, 7–8, 105
regulatory system, 7, 8, 32, 49–51, 91–92
sociopolitical obstacles to regulatory reform, 8, 91
trade and transport corridors, 32
transport infrastructure, 7
transport market conditions, 29, 32, 104
transport prices, 32, 37, 41
truck utilization, 55
Central Asia, 13
trade logistics, 19
Central Europe, 13
China, 17
Competition in transport sector
causes of high costs in Africa, 2
current status, 5–6
deregulation and, 7
fuel costs as factor in, 8
implications for policy reform, 89
international comparison of policies and outcomes, 20–25
profitability and, 44
rail competition, 38–39
regional comparison, 104
transport policy recommendations, 7, 90–91
Containerized shipping, 61 n.14
Corruption
bilateral quota system and, 54
current transport environment, 5
freight-sharing schemes, 5, 47–49
in regulated industries, 47–49
as transport cost factor, 86
trucking company perceptions, 86
See also Bribes
Costs of road transport in Africa
categories and components, 2–3
countries and corridors of interest, 3
current status, 1–2
determinants of, 2, 6–7, 15, 41, 63
economic significance, 1
infrastructure factors, 2, 6–7, 15, 79–83, 86, 104
international comparison, 1–2, 4, 13, 15, 64
market thickness and, 85
policy options to reduce, 90–96
policy recommendations to reduce, 7–10, 105–106
regional diversity, 3–4, 63, 64–68
regulation and operator mitigation strategies and, 58
research goals, 3
research methodology, 3–4
research needs, 11, 97–101, 106
role of international donors in reducing, 11
three tiers of prices and, 3, 4, 5f
trade imbalances and, 85
transport company profits and, 43
transport prices and, 2, 3, 4, 8, 41–42, 103, 104
trucking company perceptions, 85–87
