Part A: Construction of Raciborz Dry Polder

1. Construction of a dry polder on the Odra River to store flood water with a view to considerably reduce the frequency and severity of future floods, and encompassing an embankment across the Odra valley with right and left bank dikes along the valley and a spillway structure.

2. Resettlement of the displaced persons by the construction of the dry polder and implementation of the RAP.

3. Design, construction supervision, contract management, support for overall Project management and implementation of RAP.
