Such advertisement shall be made in sufficient time for prospective bidders to obtain prequalification or bidding documents and prepare and submit their responses. In any event, the period of time between advertisement and availability of prequalification or bidding documents and the deadline for submission of responses, shall be at least 14 (fourteen) days in the case of urgently-required contracts and 30 (thirty) days in the case of non-urgent contracts as set out in the Operations Manual and the advertisement and bidding documents shall specify the deadline for such submission.

(iii) All bidders that meet the qualification criteria set out in the pre-qualification document shall be invited to bid and there shall be no limit on the number of pre-qualified bidders.

(iv) All bidders shall be required to provide security in an amount sufficient to protect the purchaser in case of breach of the bidding conditions by the
bidder, and the bidding documents shall specify the required form and amount of such security. In place of a bid security, the bidding documents may require that a bidder submit with its bid a signed declaration that, if the bidder withdraws its bid during the bid validity period or, if awarded the contract, the bidder fails to sign the contract or to submit any required performance security before the deadline required in the bidding documents, the bidder will be suspended for a period of two (2) years from being awarded any contract with the Borrower, Gansu or Sichuan, including any of their departments, agencies or administrative units.

(v) Bidders will be allowed to submit bids by mail or by hand. The time for opening of all bids shall be the same as the deadline for submission of such bids.

(vi) All bids shall be opened in public; all bidders shall be afforded an opportunity to be present, either in person or through their representatives, at the time of bid opening, but bidders shall not be required to be present at the bid opening.

(vii) All bid evaluation criteria shall be disclosed in the bidding documents and quantified in monetary terms or expressed in the form of pass/fail requirements.

(viii) No bid may be rejected solely on the basis that the bid price falls outside any standard contract estimate or margin or bracket of average bid prices established by the Borrower.

(ix) Each contract shall be awarded to the lowest evaluated, substantially responsive bidder, that is, the bidder who meets the appropriate standards of capability and resources and whose bid has been determined: (A) to be substantially responsive to the bidding documents; and (B) to offer the lowest evaluated cost. The winning bidder shall not be required, as a condition of award, to undertake responsibilities for work not stipulated in the bidding documents or otherwise to modify the bid as originally submitted.

(x) For each contract financed with the proceeds of the Loan, the bidding documents and contract shall provide that bidders, suppliers and contractors shall permit the Bank, at its request, to inspect their accounts and records relating to bid submission and contract performance and to have said accounts and records audited by auditors appointed by the Bank.
(xi) Government-owned enterprises in the Borrower’s country may be permitted to bid if they can establish that they: (A) are legally and financially autonomous; (B) operate under commercial law; and (C) are not a dependent enterprise of the entity conducting the procurement.

(xii) All bids should not be rejected solely because the number of bids is less than three (3), and rejection of all bids or rebidding shall not take place without the Bank’s prior written concurrence.

(xiii) The results of bid evaluation and contract award shall be published in the national press or provincial press (as provided under 3(i) above) or official gazette or a free and open access website and shall identify the name and offered price of the winning bidder, as well as the duration and summary scope of the awarded contract.
