SCHEDULE 1

Project Description

The objective of the Project is to improve the efficiency and effectiveness of irrigation water distribution in Ghotki AWB, Nara AWB and Left Bank AWB, all in the Province of Sindh, particularly with respect to measures of reliability, equity and user satisfaction.

The Project consists of the following parts:

Part A: Community Development and Capacity Building

1. Enhancing the capacity of SIDA for the management of water resources and irrigation and drainage services in Sindh, including: (a) developing rules, procedures and guidelines for water resource, irrigation and drainage management; (b) clarification and strengthening of procurement, financial management and administrative rules and procedures; (c) developing a code of conduct, and staff rules and procedures for recruitment, administrative powers and decision making processes; (d) developing technical standards and design specifications for various kinds of infrastructure; (e) developing a water resource management system for the improvement of the management of water resources and operation of canals, drainage and flood management systems; (f) developing environment guidelines, rules and procedures to integrate environment issues in planning, design and operation of the water resource management system and strengthening of the SIDA environment management unit; (g) developing operating and maintenance procedures, standards and yardsticks; (h) dissemination of information to the public about the operation of canals, flood warning and management operations through the development of a website and broadcasting information on local radios; (i) provision of training and technical advisory services in social mobilization and FO capacity building to staff of SIDA; and (j) rehabilitation of SIDA offices.

2. Supporting AWBs in improving irrigation and drainage service delivery to FOs, and enhancing the capacity of FOs to provide crucial services to water users and to participate in the selection, planning and implementation of Project works, all through the provision of equipment, office space, training and technical advisory services.

Part B: Rehabilitation and Improvement of Irrigation and Drainage Systems

1. Rehabilitating and improving the main and branch canals of the Ghotki Canal System, Nara Canal System and Fullei Canal System, through, *inter alia*, rehabilitation of the canals and hydraulic systems, introducing a system of water measurements and accounting, installation of a data communication network,
development of a database and management information system, and establishment of modern control rooms for operation and management of the canals at the AWBs and SIDA.

2. Rehabilitating and improving about 173 distributaries and minor canals through, *inter alia*, (a) strengthening the capacity of FOs to participate in the rehabilitation and improvement process; (b) preparation of design reports outlining technical solutions, design parameters, cost estimates, and environmental and social impacts of the rehabilitation and improvement works; (c) carrying out of a program of civil works including: (i) de-silting and creation of proper sections of the distributaries; (ii) reconstruction of channel banks and inspection paths, and strengthening of the non-inspection path bank; (iii) reconstruction of outlets; (iv) repair and reconstruction of head and regulating structures in the distributaries; (v) construction of measuring sections, buffalo wallos and washing ghats where necessary; (vi) rehabilitation and construction of foot and road bridges, and any other works identified by FOs; (vii) plantation of trees on land available along the distributaries; (viii) rehabilitation/construction of FO offices and payment of operating costs to FOs; and (ix) lining of selected distributaries with geo-membrane where justified without construction of diversion channels for operation during construction.

3. Rehabilitating and improving the drainage system to allow for safe disposal of drainage effluent in areas managed by FOs, with specific interventions to be identified by SIDA in consultation with FOs.

4. Carrying out of surveys and investigations, preparation of detailed designs and design reports for Sub-Projects for Distributaries and Minor Canals, provision of consulting services for consultations with FOs in identifying and prioritizing civil works, preparation of detailed designs, bidding documents, procurement of works, and construction supervision for all works included in sub-components 1 to 3 of this Part B.

**Part C: Management Plans for Major Irrigation and Drainage Infrastructure**

1. (a) Carrying out of feasibility studies and preparation of designs for rehabilitation and remedial works for the Guddu Barrage on priority basis; (b) assisting in the review of the on-going feasibility studies for rehabilitation of the Sukhar Barrage and preparation of detailed designs and identification of priority works; and (c) inspection and assessment of the state of the Kotri Barrage, and carrying out studies for remedial works, if any.

2. (a) Carrying out of detailed studies and preparation of a regional master plan in consultation with stakeholders for addressing flooding issues and providing proper drainage to the area on the left bank of the Indus River,
including remedial measures for any outstanding deficiencies in the Left Bank Outfall Drainage system, and measures for retention and/or safe disposal of storm and flood water.

(b) Preparation of a plan, linked to the regional master plan, for the rehabilitation and improvement of the delta area, wetlands and the coastal zone taking into account environmental importance of the region and its economic potential, and drawing upon international experience.

(c) Preparation of feasibility studies and detailed designs of priority work identified under Parts C.2(a) and (b) above.

Part D: Monitoring and Evaluation of Project Impact, Environment Management Framework and Social Impact Management Framework

Provision of support for the monitoring of Project implementation, including monitoring and evaluation of: (i) Project performance and impact; (ii) implementation of the Environment Management Framework and the Social Impact Management Framework; and (iii) specific social and environmental management plans for Sub-Projects for Distributaries and Minor Canals.

Part E: Project Coordination, Monitoring, Technical Assistance and Training

1. Provision of support to PCMU and PMCA for the implementation and coordination of Project related activities, through the provision of training, technical advisory services, equipment, vehicles and incremental operating costs and the carrying out of minor office repairs.

2. Provision of support for the preparation of future projects in the water sector in Sindh including carrying out strategic studies and identifying pilot projects.

3. Provision of technical assistance and training in, inter alia, engineering design, contract administration, construction supervision, procurement, financial management, legal issues, irrigation and drainage and agricultural development, to FOs and other Implementing Agencies, and provision of assistance for carrying out strategic studies and pilot projects in agreement with the Association.
SCHEDULE 2

Project Execution

Section I. Subsidiary Financing

A. Subsidiary Arrangements

To facilitate the carrying out of the Project, the Recipient shall make the proceeds of the Credit available to the Project Implementing Entity in accordance with the Recipient’s on-lending policies, and under the same terms and conditions as shall have been received from the Association.

B. Anti-Corruption

The Recipient shall ensure that the Project is carried out in accordance with the provisions of the Anti-Corruption Guidelines.

Section II. Project Monitoring, Reporting, Evaluation

A. Project Reports

1. The Recipient shall monitor and evaluate the progress of the Project and prepare Project Reports in accordance with the provisions of Section 4.08 of the General Conditions and on the basis of the indicators agreed with the Association. Each Project Report shall cover the period of one calendar quarter, and shall be furnished to the Association not later than one month after the end of the period covered by such report.

2. For purposes of Section 4.08(c) of the General Conditions, the report on the execution of the Project and related plan required pursuant to that Section shall be furnished to the Association not later than 6 (six) months after the Closing Date.

B. Financial Management, Financial Reports and Audits

1. The Recipient shall maintain or cause to be maintained a financial management system in accordance with the provisions of Section 4.09 of the General Conditions.

2. Without limitation on the provisions of Part A of this Section, the Recipient shall prepare and furnish, or shall cause to be prepared and furnished, to the Association not later than forty-five (45) days after the end of each calendar quarter, interim un-audited financial reports for the Project covering the quarter, in form and substance satisfactory to the Association.
3. The Recipient shall have its Financial Statements audited in accordance with the provisions of Section 4.09(b) of the General Conditions. Each audit of the Financial Statements shall cover the period of one Fiscal Year of the Recipient. The audited Financial Statements for each such period shall be furnished to the Association not later than six months after the end of such period.

Section III. Procurement

All goods, works and services required for the Project Implementing Entity in carrying out the Project and to be financed out of the proceeds of the Credit shall be procured in accordance with the provisions of Section III of the Schedule to the Project Agreement.

Section IV. Withdrawal of the Proceeds of the Credit

A. General

1. The Recipient may withdraw the proceeds of the Credit in accordance with the provisions of Article II of the General Conditions, this Section, and such additional instructions as the Association may specify by notice to the Recipient (including the “World Bank Disbursement Guidelines for Projects” dated May 2006, as revised from time to time by the Association and as made applicable to this Agreement pursuant to such instructions), to finance Eligible Expenditures as set forth in the table in paragraph 2 below.
