1. Objective of the Guidelines

The objective of the Guidelines to assist Khammouane EdL brand staff who responsible and carry out the EMP issues associated with construction and operation of transmission lines to the village.

2. Sub-project Description

This sub-project will be electricified to 18 villages which is belong to Yommalath District, Khammouane Province such as: Na bor, thongkong, Kouanepho, Khamhea, Thangkane, Beungna, Khilek, Siengdao, Sang pounbone, Nathinh, Phon, Talak, That, Nachat, Na home, thongkham, Langkhang, Langkhang Saydene. For this Sub-Project is not any Industry area, this will be passed scub land and rice paddy field. For route EdL' s engineer and villagers have consultation for the route selection to reduce the impact as much as possible to villager's properties and village respected area. Some area tree will need to be removed or cut, EDL organised the consultation with the villagers, villagers now understanding well about the project and welcome and will not requested for any compensation.

• Technical Description of the sub-project

Village	House hold	Medium Voltage			Low Voltage	
		22 kV Line (m)	Number of Concrete Pole	Number of Transfor-Mers	0.4 kV Line (m)	Number of Concrete Pole
Na Bor	69	7,740	78	2	2,120	40
Thongkang	78	2,040	45	3	3,900	66
Kouanpho	52	5,620	75	2	3,060	53
Khamhe	76	4,540	46	3	3,085	47
Hangkang	73	2,160	37	1	3,765	71
Beung Na	68	1,680	22	1	3,510	66
Khi lek	60	940	18	2	2,950	39
Sieng dao	61	2,620	38	1	2,500	44
Sang pounbone	99	1,880	74	2	3,660	61
Na thin	29	4,400	58	1	1,060	21
Phone	99	4,540	59	2	3,000	60
Talak	30	2,440	46	1	1,620	21
That	21	760	11	1	755	17
Nachat	74	1,310	28	2	2,820	50
Nahome	40	1,660	21	1	1,175	29
Thongkham	73	5,440	55	1	2,120	56
Lang khang	85	11,130	140	3	5,210	78
Lang khang Sai dene		13,750	249	1	1,290	43

3. Mitigation Plan

This construction of transmission line project, there is not a big problem because this line route will be passed through forest and rice paddy field only.

There is not a so, no damage an environment.

Phase	Issues	Mitigation Measure	Responsible
Construction	Cutting the trees out of the construction right of way	Before clearing , The line shall be clearly marked and including the tree to be cut. This to avoid cut of unnecessary trees.	Surveyer /Contractor
	Noise	Construction will take place during normal daytime hours. In special case like village's holiday if EDL willing to do the construction work. EdL will need to consult with vilage ahead.	Contractor
	Injury and sickness	Routine health monitoring and should have site safety box. Provide safety wear such as: hat, shoes and advice them for safety skill.	
	Risk from construction work to communities	Installation of Dangerous warning sign from project activities.	Contractor
Operation	Clearing and cutting the trees right of way	- Be careful of cutting the trees and do not burn the trees under the power line.	EDL branch
	Transformer insulating and cooling oils leaks to contaminate water courses or soils	- Review 6 months inspection on leaking of the transformer, clean out and disposal of any spilled insulating/ cooling oils	EdL

4. Monitoring Plan

Phase	What <i>Parameter is to be monitored</i>	Where <i>Is the parameter to be monitored/type of monitoring equipment?</i>	How <i>Is the parameter to be monitored/type of monitoring equipment?</i>	When <i>Is the parameter to be monitored frequency of measurement or continuous?</i>	Responsibility
Construction	Health and safety of workers and local people	Right-of-way construction 22kV and 0,4 kV	- Monitoring the workers and local people's health and safety.	Review of health and safety of contractor's workers before starting the construction and monitoring periodly	EdL; and Independent Third Party Monitor

Operation	Substation transformer insulating and cooling oils leaks to contaminate water courses or soils	Transformer area	– 6 months inspection on leaking of the transformer, clean out and disposal of any spilled insulating/ cooling oils	As per EdL substation systems inspection schedule	EDL and population report
------------------	--	------------------	---	---	---------------------------

5. Institutional Arrangement

5.1 Institutional Responsibility and Capacity

Environment unit will responsible for implementing social and environment issues in the sub-project under supervision of EdL Khammouane branch and There should have coordination committee between district and village to help EdL implement sub-project.

5.2 Environmental Information Flow

Environment unit will report directly to planning section and Manager of EdL Khammouane Branch after that will make copy to ESU in Development Department and reporting need to be send to the concerning District for helping in the mitigation of the issues in the project.

6. Consultation with Local People and Project Affected Groups

Consultation

- Date/venue of consultation meeting

Date: 21.02.04	Venue: Nabor Village
Participants Name	Responsibility
Mr. Khamphone	Head of village
Mr. Khamsay	Deputy Head of village (1)
Mr. Oun	Deputy Head of village (2)
Mr. Am	Village Elderly
Mrs. Long	Woman Union
Mr. Nor	Head of security
Mr. Phomma	Local army
Mrs. Kong	Youth union
Mr. Toui	Head of unit
Mr. Kham bounta	EdL staff
Mr. Phaymanothone	EdL staff

Agenda:

1. Presentation of the objective of SPRE II Project.
2. Cutting the trees for construction of 22 kV and 0,4 kV will the village request for compensation or not?
3. Any problem if construction 22kV, 0,4kV to acquire some land on the rice paddy field and the other type of land.
4. Expected problems during the construction of the line.

Summary minute of meeting, comment, question and response by presenter.

1. For the description of SPRE II Village authority and villagers are agreed.
2. Cutting of the trees for construction of the line villagers will not required for any compensation.
3. During the construction if there is a problem villagers will responsible to solve them and will provide a good cooperation.
4. If there is any problem occurred during construction, village authority will help to solve and responsible about this.

Sealed and signed

Khamphone Pheng-Oudom
