Preamble

1. Procurement would be carried out in accordance with the World Bank’s Procurement Framework and “Procurement Regulations for Borrowers, July 2016, Revised November 2017”, hereinafter referred to as “Regulations”, will be applicable for all procurement under the project.

2. In accordance with paragraph 5.9 of the “World Bank Procurement Regulations for IPF Borrowers” [July 2016, Revised November 2017] [“Procurement Regulations”] the Bank’s Systematic Tracking and Exchanges in Procurement [STEP] system will be used to prepare, clear and update Procurement Plan and conduct all procurement transactions for the Project.

3. This textual part along with the Procurement Plan tables in STEP constitute the Procurement Plan for the Project. The following conditions apply to all procurement activities in the Procurement Plan. The other elements of the Procurement Plan as required under paragraph 4.4 of the Procurement Regulations are set forth in STEP.

4. **Advance Contracting with Retroactive Financing:** For effective project implementation and effective start-up, the project has initiated advance contracting.

5. **The Bank’s Standard Procurement Documents:** shall be used for all contracts subject to international competitive procurement and those contracts as specified in the Procurement Plan tables in STEP.
6. **Procurement Management:**

The project is to be implemented by National Rural Livelihood Society under MoRD, to be known as National Mission Management Unit under the project; 13 participating states which are: Assam, Bihar, Chhattisgarh, Gujarat, Jharkhand, Karnataka, Maharashtra, Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal; also known as State Rural Livelihood Missions under the Pan India NRLM. Each SRLM has a society with established institutional and governance systems, under the project these will also be referred as State Mission Management Units (SMMU). The Procurement will also be undertaken at the District level. No procurement is envisaged at Block level, however districts and block level authorities will facilitate community procurement by helping beneficiaries in drafting the specifications, drawing up framework agreements and Rate Banks in supervision of respective State Mission Management Units.

Each SMMU will prepare an annual procurement plan and submit the same to NMMU for collation to be submitted for Bank’s No Objection.

NMMU will also prepare a Procurement Manual which will be used by the State and District level implementing agencies under the project. This will have separate section for Community Procurement detailing the methods and thresholds applicable to the communities. The manual will be approved by MoRD and World Bank.

**Use of GeM** will be allowed in lieu of shopping up to US$ 30,000 in catalog mode [viz. any available item could be selected]. The GeM will also be allowed in lieu of shopping up to US$ 100,000, provided there are at least 3 suppliers for the item on GeM and the entity uses RFQ [mini competition or bidding among suppliers] feature on GeM to discover the final price.

**Systematic Tracking of Exchanges in Procurement [STEP].** The project will implement STEP, a World Bank procurement planning and tracking system, which would provide data on procurement activities, establish meaningful and measurable benchmarks.

7. **E-Procurement:** States which have already been using e-procurement that have been assessed by the World Bank will continue to use the respective platforms.

8. **Record Keeping:** All records pertaining to the award of tenders, including bid notification, register pertaining to sale and receipt of bids, bid opening minutes, Bid Evaluation Reports; and all correspondence pertaining to bid evaluation, communication sent to/with the World Bank in the process, bid securities, approval of invitation/evaluation of bids by the State/District/Block and Village levels would be retained by the respective Implementing Agencies.

9. **Disclosure of Procurement Plan:** The project will use the Bank’s online procurement planning, tracking and monitoring tool, Systematic Tracking of Exchanges in Procurement.
