SCHEDULE 1
Project Description

The objective of the Project is to enhance transparency and improve the mobilization, allocation and management of public resources.

The Project consists of the following parts:

Part A Enhancing Transparency and Efficiency in Public Resource Management

1. Enhancing the systems for transparent public financial management and reporting

Implement a program of activities to enhance the systems for transparently and efficiently managing and reporting on public resources, through: (a) technical assistance for an in-depth assessment of current GFMIS and the development of a GFMIS integration master plan; (b) upgrading of the existing GFMIS modules for budget preparation and execution; (c) introduction of a modernized GFMIS accounting module; (d) development of interfaces between the budget and accounting GFMIS, as well as interfaces between these systems and other selected public finance information management systems; (e) technical assistance and training for improved public investment management; and (f) capacity-building for the Court of Accounts to enhance external oversight of annual budget execution.

2. Increasing monitoring of SOEs and autonomous agencies

Implement a program of activities designed to improve performance and accountability of state owned enterprises (SOEs) and autonomous government agencies, including through: (a) technical assistance to the DTF to strengthen financial oversight and performance monitoring of the parastatal sector, including the formulation of a national policy for the parastatal sector, production of annual reports on parastatal agencies and SOEs, training for DTF and SOE board members, and elaboration of performance agreements with selected SOEs; (b) the development of a platform for the consolidation and sharing of financial data and information on the parastatal sector between the DTF, IGE and the Court of Accounts; (c) introduction of international auditing standards and a quality review scheme for the auditing of EPAs and AGAs; (d) capacity-building for the IGE and the Court of Accounts to enhance internal and external controls over the parastatal sector; and (e) diagnostic studies on the internal control system of the MEF.

3. Enhancing the public procurement system

Enhance the public procurement system, including through: (a) elaboration and dissemination of practical tools and systems for the implementation of the new procurement regulatory and institutional framework; (b) study on procurement management norms; (c) elaboration of standardized technical specifications for high frequency contracts; (d) introduction of a certification system for procurement specialists; (e) procurement training programs; (f) capacity building and training for relevant
stakeholders, including private sector operators; and (g) design and implementation of Whistleblower Mechanisms.

Part B Strengthening the Administration of Land Registration and Mining Taxation

1. Strengthening the administration of land registration

Implement a program of activities, including: (a) a legal and institutional land review, as well as community consultations; (b) a review of the property taxation and valuation system and processes; (c) an update of taxpayer censuses in selected cities; (d) provision of logistical support and equipment for the management and updating of the land information system, and related capacity building activities for DGDPE; and (e) piloting of land rights registration in selected rural and urban areas, including support to the COTREF and DGDPE to supervise the pilots.

2. Broadening the tax base and strengthening fiscal management in the mining sector

Implement a program of activities, including: (a) support to the DMG in administering the newly introduced modern mining registry and the geo-science portal to promote new investments and better manage existing investments; and (b) a dedicated technical assistance program to improve intra-governmental coordination and strengthen capacity for fiscal management and tax auditing in the mining sector.

Part C Project Management

Support to the Recipient for activities related to the management of the Project including the cost of hiring and maintaining the PIU staff, equipment and Operating Costs directly linked to the daily management of the Project, the cost of External Audits of Project Accounts, and the cost associated with the Technical Committee.

Part D Strengthening National Statistical Capacity, Medium-term Programming and Annual Budget Processes

1. Enhancing the capacity of the National Statistical System to produce timely and quality statistics

Implement a program of activities designed to support the NSS, including: (a) training of statisticians and NNS staff; (b) technical assistance to clarify and enhance the effectiveness of the institutional arrangements for ONS and the National Statistics Council; and (c) technical assistance to support the ONS in revising the methodologies for the production of selected statistics.

2. Improving medium-term planning and budgeting

Implement a program of activities, including: (a) training and technical assistance to the MEF Directorate for Economic Previsions; (b) development of systems for macroeconomic modelling and fiscal simulation; and (c) technical assistance to support the elaboration of two sectoral MTEFs and their alignment with annual sectoral budgets.
3. **Enhancing access to statistical information**

Implement a program of activities, including: (a) support for the introduction of a regulatory and policy framework to facilitate citizen access to selected economic, fiscal and financial information; (b) development of on-line portals and open data bases for the dissemination of micro-data and fiscal information; and (c) communication and outreach campaigns for information end-users of micro-data and fiscal information.
