Independent Auditor's Report

TO: The Donor of the Project
International Development Association (IDA)

We have audited the Financial Statements of the Youth Opportunities Project (YOP) implemented by the Government of Liberia through the Ministry of Youth and Sports (MYS), the Liberian Agency for Community Empowerment (LACE) and the Ministry of Gender, Children & Social Protection (MGCSP) which comprise the Balance Sheet as at June 30, 2017 and the related statement of Receipts and Payments for the Nine (9) months then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (IPSAS) – Cash Basis and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. Our audit was conducted in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Youth Opportunities Project implemented by the Government of Liberia through the Ministry of Youth (MYS) and Sports, the Liberian Agency for Community Empowerment (LACE) and the Ministry of Gender, Children & Social Protection (MGCSP) as at June 30, 2017 and the results of its operations for the Nine (9) months ended, as well as for the credit received and expenditures made by the Project for the period ended in accordance with International Public Sector Accounting Standards (IPSAS) – Cash Basis.

Our responsibility is to express an opinion on the Project Special Account Statement based on our audit. Our audit was conducted in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
