Guatemala Poverty Assessment

TABLE OF CONTENTS

MAIN REPORT

EXECUTIVE SUMMARY ........................................................................................................... i

Chapter 1 – Introduction ........................................................................................................... 1
  Context for Report: the GUAPA Program ............................................................................. 1
  Objectives of Report ............................................................................................................. 2
  Analytical Framework ......................................................................................................... 2
  Information Sources: Integrating Qualitative and Quantitative Data ................................. 3
  Overview of the Report ....................................................................................................... 4

PART 1 – THE MAGNITUDE AND CAUSES OF POVERTY .................................................. 7

Chapter 2 – “The Problem:” Poverty and Social Indicators ..................................................... 7
  Monetary Indicators of Poverty and Inequality in Guatemala ............................................. 7
  Non-Monetary Indicators of Poverty and Living Conditions in Guatemala ....................... 13
  Perceptions of Poverty and Welfare in Guatemala ............................................................. 16

Chapter 3 – The Determinants of Poverty and Inequality: Endowments and Household Characteristics .......................................................... 23
  The Determinants of Poverty ............................................................................................. 23
  The Sources of Inequality .................................................................................................. 25

Chapter 4 – Historical and Contextual Factors ...................................................................... 30
  Diversity, Ethnicity and Isolation ....................................................................................... 30
  Exclusionary Forces in Guatemala’s Historical Pattern of Development ............................ 33
  Guatemala’s 36-Year Civil War: Significant Costs for Long-Term Development ............... 36

PART 2 – KEY CHALLENGE: BUILDING OPPORTUNITIES AND ASSETS .......................... 42

Chapter 5 – Growth and Poverty .......................................................................................... 42
  Poverty and Growth Over Time ......................................................................................... 42
  Poverty and Growth in the Future: Targets and Projections ............................................. 45
  Summary of Key Issues and Priorities .............................................................................. 47

Chapter 6 – Livelihoods, Labor Markets, and Rural Poverty ................................................. 49
  Incomes and Inequality ...................................................................................................... 49
  Labor Markets .................................................................................................................. 50
  Rural Poverty and Livelihoods ......................................................................................... 54
  Summary of Key Issues and Priorities .............................................................................. 59

Chapter 7 – Education and Poverty ....................................................................................... 62
  Sectoral Overview .............................................................................................................. 62
  Educational Stock, Coverage and Equity ......................................................................... 63
  Internal Efficiency ............................................................................................................. 65
  Disparities in the Quality of Education ............................................................................. 67
  Barriers to Enrollment and Attainment ............................................................................. 69
  The Returns to Education .................................................................................................. 73
