Implementation Status and Key Decisions

The project is on track to achieve its objectives. The project supports the Ministry of Health and Family Welfare (MOHFW)'s fourth health, nutrition and population sector program for 2017-2022. The project provides a platform for pooled co-financing of the government's sector program based on the achievement of pre-defined results in the areas of governance and stewardship, health systems strengthening and delivery of quality HNP services particularly in the regions of Sylhet and Chittagong. A total disbursement of US\$115 million has been made, thus far, following verification of 19 results. Along with support from the International Development Association (IDA), the project includes co-financing from the Global Financing Facility, Canada, the Netherlands, Sweden and the United Kingdom.

On June 29, 2018, the World Bank Group Board of Executive Directors approved additional financing of US\$50 million on grant terms for supporting the government in planning, coordinating and managing health, nutrition and population services for the displaced Rohingya population in Cox's Bazar district. A new component (component 4) has been added to the project for these activities. The MOHFW has signed agreements with four United Nations (UN) agencies to support implementation – the United Nations Children's Fund (UNICEF), World Health Organization (WHO), United Nations Population Fund (UNFPA) and the International Organization for Migration (IOM). US\$6.16 million has been disbursed to date for implementation of this component.
