ANNEX 3

Governance
Sint Maarten Hurricane Irma Reconstruction, Recovery and Resilience Program Single-Donor

This Annex shall be applicable to and form an integral part of the Administration Arrangement for the Trust Fund between the Bank and the Donor. To facilitate the implementation of the Program, the World Bank and the Donor agree on governance arrangements as follows:

1. **Steering Committee.** A Steering Committee ("SC") will be established as the governance body of the Trust Fund and it is envisaged that the SC will consist of a representative of the World Bank (the Country Director of the World Bank’s Caribbean Country Management Unit or his/her designee), a representative from the Netherlands Ministry of Interior and Kingdom Relations, and a representative from Sint Maarten (the Prime Minister or his/her designee). SC meetings may be conducted physically or virtually, at least bi-annually (it is envisaged that the first of such meeting will address the annual work program and the second of such meeting will be to receive a progress report on the preparation and implementation of work program/s). The Bank, as the Program Secretariat, may also call ad-hoc meetings. The role of the SC will be to: (a) endorse strategic priorities and annual work plans and budgets of the Trust Fund financed program; and (b) monitor the program’s annual progress. For these purposes, the World Bank will prepare annual work plans, in coordination with Sint Maarten, and will develop annual budgets that will be shared with the SC for endorsement. The decisions of the SC will be made by consensus, preferably on a no-objection basis.

2. The Participants agree and understand that the Bank:

   (a) does not, through this Arrangement, preempt or intend to preempt, in either whole or in part, any decision to be made by the SC for the carrying out of its work or any work in relation to this Trust Fund, including the SC’s approval of terms of reference and any principles to be applied in that respect; and

   (b) shall bear no responsibility (i) for imposing specific terms of reference or obligations on the SC or its members, (ii) for enforcing the carrying out of responsibilities by the respective members of the SC, or (iii) for any delay in performance occasioned by either the Donor’s or Sint Maarten’s failure or inability to carry out their respective responsibilities as members of the SC or to mutually agree in respect to decisions to be made by the SC; any resulting impact on the Bank’s ability in whole or in part to deliver on the program activities shall not be deemed a breach of this Arrangement.

3. In recognizing the **Guiding Principles of The Netherlands Regarding the Execution of the Trust Fund for the Recovery of Sint Maarten** that the Donor has endorsed for itself, and without prejudice either to the decisions to be made by the SC, or to the Bank’s determination of the relevance of the individual principles and their consistency with the Bank’s policies and procedures as indicated in the preamble of this Arrangement, the Donor proposes that the SC, in its endorsement of strategic priorities and annual work plans and budgets, be guided by the following principles: (a) necessity, interpreted as lack of reasonable financing sources other than public funds (at least for part of the financing); (b) additionality, interpreted as trying to crowd-in potentially available private financing; (c) suitability, interpreted as adequate to the scale and size of Sint Maarten (including, for example, absorption capacity); (d) effectiveness, interpreted as consistency with Sint Maarten’s long development goals and financial sustainability; (e) efficiency and legitimacy, interpreted as having adequate financial management arrangements in place for the transparent and proper use of the allocated funds; and (f) pursuit of noticeable effects for the people of Sint Maarten.
during the duration of the Trust Fund, enlargement of Sint Maarten's resilience, seeking of value for money (in a manner consistent with the World Bank Procurement Regulations), maximization of financing for development, innovation and a three-track approach for the implementation (interpreted as having either Sint Maarten, or international organizations, or non-governmental organizations as recipients of grant agreements under the Trust Fund).

4. **Program Secretariat.** The World Bank, as Program Secretariat, will undertake the following activities: (a) managing and participating in SC meetings; (b) managing donor/stakeholder meetings, discussions and other communications; (c) Program - work planning and execution; (d) managing communications (external / internal) and outreach activities (including program-related websites); (e) soliciting and evaluating activity proposals to be executed under the Recipient-executed activities of the Trust Fund; (f) allocating funds to projects/activities or programmatic allocations to units; (g) Program level resource related planning and budgeting; (h) if needed, development and implementation of Program-specific management tools and systems; and (i) Program monitoring and evaluation.
APPENDIX

Guiding principles of the Government of the Netherlands regarding the execution of the Trust Fund for the recovery of Sint Maarten

The objective of the Dutch government guiding the recovery of Sint Maarten: The Dutch contribution will support the material and non-material reconstruction and recovery of St Maarten wherever necessary, so as to restore vital infrastructure and sustainably boost the country's resilience to the effects of possible future disasters, natural and otherwise.

Explanation of the above paragraph:

After the devastation of hurricane Irma, 'Building Back Better' became the motto for rebuilding St Maarten. Among other things, this means that all new buildings must be able to withstand Category 5 hurricanes and that, wherever possible, new construction should be sustainable. To provide a more detailed framework for the reconstruction and recovery of St Maarten that goes beyond the dictum to 'build back better', an objective has been formulated which will guide all expenditure and activities undertaken or supported by the Dutch government in this area.

The various elements of the objective:

- 'The contribution': this encompasses both the financial contribution and other contributions (capacity, administrative support, etc.).
- 'will support the material and non-material reconstruction and recovery of St Maarten wherever necessary': activities can be financed from the reconstruction fund if they are directly related to dealing with the damage caused by the hurricanes Irma and Maria. The Trust Fund can also be used to fund other activities supplementary to damage repair, provided they lead to significant improvements to the pre-hurricane situation on the island.
- 'so as to restore vital infrastructure': this term refers to facilities that are so critical that any disruption or breakdown in their functioning would result in serious social upheaval and constitute a threat to national security.
- 'the country's resilience': this refers, among other things, to crisis management and disaster preparedness, economic diversification, the enhancement of good governance and the strengthening of civil society.
- 'sustainably boost [resilience] to the effects of possible future disasters, natural and otherwise': investments should go to projects with a long-term vision that respect both people and the environment. It is advisable to consider the possible ripple effects of these investments. Expenditure on physical infrastructure should focus on hurricane-resistant construction, which should also take account of other types of natural disasters, if possible.

1. Scope and effects: The scope of the Trust Fund shall be based on the above objective, the National Recovery and Resilience Plan (NRRP) of Sint Maarten and the following criteria will guide the execution of the Trust Fund, through the Steering Committee: Necessity, Suitability, Effectiveness, Efficient & Legitimate.

Explanation of the above paragraph:

- **Necessity**: interpreted as lack of reasonable financing sources other than public funds (at least for part of the financing).
- **Additionality**: interpreted as trying to crowd-in potentially available private financing.
- **Suitability**: in terms of its substance, form and process, the project is consistent with the scale of St Maarten (as regards to absorption capacity and other types of capacity).
• **Effectiveness**: the project helps attain the objective and is consistent with St Maarten's long-term policy ambitions. This criterion also means that sustainable financing has been secured.

• **Efficiency & legitimacy**: safeguards must be in place to ensure the efficiency and legitimacy of all projects and expenditure.

On top of these criteria, the Government of the Netherlands wishes to mark three policy objectives; it is highly desirable that the following is addressed in the Steering Committee when considering financing through the Trust Fund:

(a) Achieving sustainable waste processing and water purification, in collaboration with France.

(b) Guaranteeing the accessibility of St Maarten with a view to supporting the economy.

(c) Good governance.

2. **Governance**: a tripartite governance structure (Steering Committee) will be set up between the Netherlands, St Maarten and the World Bank. It is desirable that the reconstruction and recovery involves St Maarten's civil society. The Netherlands will recommend to Sint Maarten to establish a sounding board. It is also part of the Bank's implementation arrangements of each project to involve stakeholders, including civil society.

The Steering Committee will endorse proposals for projects and for analytical work (and relevant budgets) and the bank will proceed on the basis of such endorsement.

3. **Monitoring, reporting requirements and accountability**: Monitoring practices will follow the standard working methods of the World Bank, with the frequency and content of reports to be determined based on the approach of the steering committee.

*Explanation of the above paragraph:*

In principle, we will work with annual working programs in line with the regular working methods of the World Bank. In addition, 6 months after the approval of an annual working program, there will be a SC meeting to assess progress in the implementation of the endorsed program.

The information and reporting cycle should be tripartite and coordinated for the purpose of having consistent information between the Netherlands and St. Maarten.

4. **Implementation**: The following principles should guide the execution of the Trust Fund be part of this Administration Arrangement: notable effects for the people of St Maarten during the term of the Trust Fund, enlarging the resilience, value for money, maximising financing for development, innovation and a three-track approach for the implementation.

*Explanation of the above paragraph:*

Goals for the Trust fund must be realistic, taking account of constraints in terms of time, money and other resources, this will be monitored by the Steering Committee. The following principles should be kept in mind:

- The implementation programmes contain a mix of projects (economic, social and governmental), with both short- and long-term effects, with an emphasis on visible effects for the people of St Maarten.
- The aim of technical assistance will be to increase the self-reliance of St Maarten in a lasting way.
The following two principles will be observed:

- 'value for money': local labour will be used to the greatest possible extent, and within the framework of the procurement regulations of the Bank, attention will be given to opportunities for local companies to take part in the implementation.
- 'maximising finance for development': a variety of financial instruments will be reviewed in order to see which is the most appropriate for the implementing programmes.

- wherever and whenever possible and appropriate in the preparation and execution of projects and activities, scope for innovation is offered.
- To ensure a variety of options with regard to implementation, a three-track approach will be followed, drawing on recipients from the public sector, international organisations and non-governmental organisations. The authorities of St Maarten, IOs and NGOs can obtain direct access to the resources in the Trust Fund.
