Implementation Status and Key Decisions

The data collection was completed for the first visit in all 8 countries by December 2018 and data cleaning has been started. Training for the second visit has been completed in all 8 countries. Field work for the second visit will be done between March and June 2019. A workshop will be held in Lome, Togo to work with the countries in how to do poverty measurement using the new methodology and data. With the exception of Niger, this survey represents a significant change in the methodology being used to measure poverty and the countries will learn how to compare the new poverty figures with poverty figures collected in the past.
