Her Excellency Mrs. Cristina Duarte
Minister of Finance
Ministry of Finance
Praia
Republic of Cape Verde

Excellency:

West Africa Fisheries Program (Phase I)
Credit No. 4665 CV
Amendment to the Financing Agreement

1. We refer to the Financing Agreement (the “Agreement”), dated December 2, 2009, as amended to date, between the Republic of Cape Verde (“Recipient”) and the International Development Association (“Association”) for the above mentioned Project.

2. We also refer to your letter, dated April 15, 2003, request the Association for specific amendments to the Agreement. Accordingly, we propose to amend the Agreement in respect of the provisions below:

   (a) Section 3.01 of Article III to the Agreement is amended to read as follows:

   “3.01 The Recipient declares its commitment to the objectives of the Project and the Program. To this end, the Recipient shall carry out Parts A.1(a), (b), (c), (d), and (f), A.2, A.3, B.1(a), B.2, C.1, D.1 and D.2 of the Project through the DGP and cause Parts A.1(e), A.4, B.1(b), B.3, C.2 and D.3 of the Project to be carried out by CSRP, in accordance with the provisions of Article IV of the General Conditions and the Project Agreement.”

   (b) Schedule 1 (“Project Description”) to the Agreement is amended as set forth in Annex 1 to this Amendment Letter.

   (c) The table in paragraph A.2 in Section IV.A of Schedule 2 to the Agreement is revised as set forth in Annex 2 to this Amendment Letter.

3. Except as specifically amended by this Amendment Letter, all other provisions of the Agreement remain unchanged.
4. Please confirm your acceptance to the foregoing, on behalf of the Recipient, by signing and dating the two originals retaining one original for your records and returning the other original to the Association. Upon receipt by the Association of the original Amendment Letter countersigned by you, this Amendment Letter will become effective as of the date of your countersignature.

Sincerely,

INTERNATIONAL DEVELOPMENT ASSOCIATION

ANNEX 1

"Schedule 1"

Project Description

The objective of the Project is to strengthen the capacity of the Recipient to govern and manage targeted fisheries, reduce illegal fishing and increase local value added to fish products.

The Project consists of the following parts:

Part A: Good Governance and Sustainable Management of the Fisheries

1. Good Governance of Fisheries

(a) The establishment and maintenance of a fishing vessel registry within the DGP for all industrial and small-scale fishing vessels.

(b) The carrying out of regular biological and economic assessments of the status of targeted fish stocks as well as the carrying-out of simulation models of potential alternatives for the management of these resources.

(c) The establishment of an appropriate system of information and analysis within DGP for the management of fisheries, linked to the Regional Information Platform to be introduced by CSRP under Part A.1 (e) of the Project.

(d) The carrying out by DGP of: (i) a mid-term evaluation of the implementation of the Fisheries Sector Management Plan 2004 – 2014, the implementation, based on such evaluation, of any necessary revisions to such plan; and (ii) the carrying out of a review of the existing regulatory framework governing the fisheries sector, including through consultations with all concerned parties, and the development and implementation of an improved regulatory and institutional framework to govern commercial fishing.

(e) The development and introduction by CSRP within RCU of a system of regional information and analysis for the management of the Participating
Countries’ fisheries, such system to include the key biological, economic and social statistics regarding fisheries.

(f) The carrying out of a management and functional review to support a review of the institutional arrangements for the fisheries sector, with a definition of the statute, role and organigram of all the institutions involved in the fisheries management and surveillance, including revised staff regulations and a human resource development plan (including job descriptions for needed positions in the fisheries Department, career paths, and a feasible incentive framework.)

2. Fishing Co-Management

(a) The introduction of a suitable system of co-management by the Recipient and local fisheries committees of the Recipient’s coastal fishing resources, such system to include the establishment of marine-protected areas that would evolve into pilot TURFs along the Recipient’s coast, and of community co-management associations to manage these marine-protected areas, and the provision of Training and ongoing support to such associations.

(b) Support the co-management process and the pilot TURFs implementation at the communities’ level, with the provision of necessary goods and equipment as further Training for the fishing associations on the framework of the preparation and implementation of the co-management system;

3. Alternative Livelihoods

The carrying out of a program of Training and technical assistance for the development of alternative livelihoods to fishing targeted to youths in fishing communities where fisheries resources are overexploited.

4. Social Marketing, Communication and Transparency

The carrying out of a Training program to facilitate the development of an active network of local journalists within the region to cover and report on the fisheries management issues and progress with Program implementation, such program to include the provision of small equipment and travel expenses for network journalists.

Part B: Reduction of Illegal Fishing

1. Enabling Environment
(a) The development and adoption of a sustainable financing framework for the management of the fisheries sector, notably fisheries surveillance operations, taking into account current and potential public revenue streams from fisheries.

(b) The carrying out by CSRF of a program of technical assistance for the Participating Countries to facilitate their development and implementation of financial mechanisms to provide stable and adequate support for the long-term operating costs of the fisheries surveillance system in their respective territories.

2. Monitoring, Control and Surveillance Systems

The carrying out of programs designed to ensure the appropriate and sustainable civilian surveillance of fishing activities along the Recipient’s coast, consisting of:

(a) The recruitment and training of fisheries inspectors and observers to be assigned to the DGP.

(b) The operation of a satellite-based vessel monitoring system to be installed at the DGP and the provision of additional goods and equipment to expand the coverage of such system.

(c) The construction and rehabilitation of civilian coastal surveillance stations.

(d) The carrying out of a surveillance plan for artisanal fisheries, including the provision of training, and the operation of civilian-led participatory coastal fisheries surveillance patrols in cooperation with targeted communities.

(e) The support to the Counternarcotics and Maritime Security interagency operations center (COiMAR) to carry out civilian-led surveillance patrols for artisanal, semi-industrial and industrial fisheries.

(f) Support the improvement of fisheries monitoring, control, and surveillance system and Project implementation progress.

3. Strengthened Regional Collaboration for Monitoring, Control and Surveillance of Fishing

The carrying out by CSRF of a training program to assist the Participating Countries in their implementation of the Fish Catch Certification Scheme and their preparation of bilateral cooperation agreements and the performance of periodic reviews and audits by an independent group of experts, of the fisheries surveillance activities financed under the Project.

Part C: Increasing the Contribution of Marine Fish Resources to the Local Economies

1. Fish landing site clusters. The establishment of integrated fish landing site clusters to operate as special economic zones, including:
(i) The construction of an ice plant at the site cluster located at Sal and the realization of the feasibility study for a vessel repair facility at the site cluster located at Santiago; and

(ii) The provision of electricity and water supply systems, as well as goods and equipment for a fish auction hall, at the cluster site located at Praia.

2. Fish Product Trade Infrastructure, Information and Systems

   The development and implementation of a system of quality control and proactive trade information services for fish products, aimed at supporting the expansion of exports of these products from West Africa, such system to include the creation of a proactive fisheries trade information system housed at the CSRFP for targeted supply chains in each Participating Country and product identification cards for selected fisheries, and provision of Training on the establishment of traceability systems.

Part D: Coordination, Monitoring and Evaluation and Program Management

1. Technical Assistance for National Implementation

   The preparation of Annual Work Plans and the updating of procurement plans and related budgets and Project management, monitoring and evaluation through the provision of technical assistance.

2. Operating Costs for National Implementation

   The provision of Operating Costs, Training, and goods to the PIU for the implementation of the Project.

3. Regional Coordination

   The carrying out of a program by CSRFP to: (i) facilitate the harmonization of fisheries policy among the Participating Countries; (ii) monitor and evaluate Program investments and share information and results throughout the Participating Countries; (iii) implement ongoing communication activities to raise awareness about the Program and implementation progress; and (iv) provide implementation support to each of the Participating Countries, including the coordination of regional procurement.

Subject: Amendments of the legal agreements for IDA (P106063) and for GEF (P106063).

Dear Mme./Sir

After being counter signed by the Minister of Finance from Cap Verde Government, please find attached to this letter, one original document on the amendments of the legal agreements for IDA (P106063) and for GEF (P106063), under which the West Africa Regional Fisheries Project at Cape Verde (WARFP-CV) has been functioning.

We further inform you that one original of the same documents has been kept in the record of the Ministry of Finance and Planning from the Cape Verde Government.

Sincerely yours

Praia, 8th August 2013
