Auditor's Responsibility

Our responsibility is to express an opinion on these Project financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing and to relevant World Bank guidelines. Those standards and World Bank guidelines require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Project financial statements present fairly, in all material respects, the balance on the Special Account as of 31 December 2014 and the movements on the Special Account and the Sources and Uses of Funds of Project for the period from 01 January 2014 to 31 December 2014, in accordance with the World Bank guidelines and procedures and contractual basis of the Project.
