STATEMENT OF MANAGEMENT'S RESPONSIBILITIES FOR THE PREPARATION AND APPROVAL OF THE SPECIAL-PURPOSE FINANCIAL STATEMENT FOR THE YEAR ENDED DECEMBER 31, 2015

The following statement is made with a view to distinguishing respective responsibilities of the management and those of the independent auditors in relation to the Special-Purpose Financial Statements of the Rail Trade and Transport Facilitation Project ("Project").

Management is responsible for the preparation of the Special-Purpose Financial Statements that present fairly the Special-Purpose Balance Sheet of the Project as at December 31, 2015, the Statement of Cash Receipts and Payments, the Statement of Project Activities, the Statement of Designated and Project Accounts and the Statement of Expenditure and Summary Sheet Withdrawal Schedule ("SOE" and "SSWS") for the year ended, in accordance with the International Public Sector Accounting Standards ("IPSAS") "Financial Reporting under the Cash Basis of Accounting" issued by the International Public Sector Accounting Standards Board of the International Federation of Accountants ("IFAC-IPSASB") and relevant provisions of the loan agreement number 7509-AZ (the "Loan Agreement") as described in Note 2 to the Special-Purpose Financial Statements and for such internal control as management determines is necessary to enable the preparation of the Special-Purpose Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special-Purpose Financial Statements, management is responsible for:

- Selecting suitable accounting principles and applying them consistently;
- Making judgments and estimates that are reasonable and prudent;
- Stating whether the IPSAS and relevant provisions of the Loan Agreement have been followed, subject to any material departures disclosed and explained in the Special-Purpose Financial Statements; and
- Preparing the Special-Purpose Financial Statements on a going concern basis, unless it is inappropriate to presume that the Project will continue its operations for the foreseeable future.

Management is also responsible for:

- Designing, implementing and maintaining an effective and sound system of internal controls, throughout the Project;
- Maintaining proper accounting records that disclose, with reasonable accuracy at any time, the financial position of the Project, and which enable them to ensure that the Special-Purpose Financial Statements of the Project comply with the IPSAS and relevant provisions of the Loan Agreement;
- Maintaining statutory accounting records in compliance with legislation and accounting principles of the Republic of Azerbaijan;
- Taking such steps as are reasonably available to them to safeguard the assets of the Project; and
- Detecting and preventing fraud and other irregularities.

The Special-Purpose Financial Statements for the year ended December 31, 2015 were authorized for issue on June 20, 2016 by the management of the Project Implementation Unit.

INDEPENDENT AUDITORS' REPORT

To the Management of the Project Implementation Unit of Rail Trade and Transport Facilitation Project of the Republic of Azerbaijan:

We have audited the accompanying Special-Purpose Financial Statements of the Rail Trade and Transport Facilitation Project of the Republic of Azerbaijan (the "Project"), which comprise the Special-Purpose Balance Sheet as at December 31, 2015, and the Statement of Cash Receipts and Payments, the Statement of Project Activities, the Statement of Designated and Project Accounts and the Statement of Expenditure and Summary Sheet Withdrawal Schedule ("SOE" and "SSWS") for the year then ended, and a summary of significant accounting policies and other explanatory notes (collectively referred to as the "Special-Purpose Financial Statements") financed by the International Bank for Reconstruction and Development (the "IBRD") through loan agreement number 7509-AZ (the "Loan Agreement").

Management's Responsibility for the Special-Purpose Financial Statements

Management is responsible for the preparation and fair presentation of these Special-Purpose Financial Statements in accordance with International Public Sector Accounting Standards ("IPSAS") "Financial Reporting under the Cash Basis of Accounting" issued by the Public Sector Committee of the International Federation of Accountants ("IFAC-PSC") and relevant provisions of the financing agreements as described in Note 2 to the Special-Purpose Financial Statements and for such internal control as management determines is necessary to enable the preparation of the Special-Purpose Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Special-Purpose Financial Statements based on conducting the audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Special-Purpose Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in these Special-Purpose Financial Statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the Special-Purpose Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the project management's preparation and fair presentation of the Special-Purpose Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the project's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Special-Purpose Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Special-Purpose Financial Statements present fairly, in all material respects, the financial position of the Project as at December 31, 2015, the cash receipts and disbursements on behalf of the Project and transactions passed through the Project's special accounts for the year ended December 31, 2015 in accordance with IPSAS "Financial Reporting under the Cash Basis of Accounting" and relevant provisions of the Loan Agreement as described in Note 2 of the Special-Purpose Financial Statements.

In addition, with respect to the SOE and SSWS, all payments reported are eligible for financing under the respective loan agreement and adequate documentation have been maintained to support the claims for withdrawal.

NOTES TO THE SPECIAL-PURPOSE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

(Amounts expressed in the United States Dollars unless otherwise indicated)

1. DESCRIPTION OF THE PROJECT

On December 18, 2009, the Republic of Azerbaijan ("Recipient") and the International Bank for Reconstruction and Development (the "IBRD") have agreed to lend to the Recipient, on the terms and conditions set forth or referred to in the Loan Agreement 7509 AZ (the "Loan Agreement"), a credit facility in the amount equivalent to 450,000,000 United States Dollars (USD 450,000,000) (the "Loan") to assist in financing the project described in Schedule 1 to the Loan Agreement (the "Project"). The Project's original completion date of September 30, 2013 has been extended to December 31, 2017 on September 17, 2013.

On June 27, 2013, the IBRD and the Government of Republic of Azerbaijan agreed to restructure the Project by providing additional financing in the amount of USD 220,000,000 and extending the closing date to December 31, 2017 (Loan Agreement 8282 AZ). The additional financing will be used for full replacement of power supply and signaling systems on the East-West Main Line.

The objective of the Project is to improve railway services in the Republic of Azerbaijan, as well as the competitiveness, financial sustainability, operating and cost efficiency and capacity of the Azerbaijan Railways CJSC in particular along the east-west transport corridor. The Project consists of the following components:

Component 1: Rehabilitation of East-West Main Line

- (a) Rehabilitation of about 240 km of mainline track;
- (b) Conversion of power supply on the East-West Main Line; and
- (c) Upgrading signaling, compatible with the new 25kV AC power supply system.

On June 27, 2013, the IBRD and the Government of Republic of Azerbaijan agreed to restructure the Loan Agreement and correspondently, additional 298 km of mainline track was included in the scope of Component 1.

Component 2: New Mainline Locomotives

This is provision of goods and services in order to provide mainline 25kV AC electric locomotives to operate on the east-west corridor.

The Recipient and IBRD agreed to finance the new mainline locomotives directly using the funds of Government of Republic of Azerbaijan and requested the IBRD to reallocate USD 202,000,000 to the rehabilitation of the East-West mainline of Component 1.

Component 3: Modernization of Azerbaijan Railways Services

Provision of works, goods, services and training in order to:

- (a) Support the implementation of the restructuring and development of Azerbaijan Railways CJSC, including, but not limited to, for the transition to the International Financial Reporting Standards and legal restructuring of the Azerbaijan Railways CJSC; and
- (b) Improve its oil spill prevention capacity.

NOTES TO THE SPECIAL-PURPOSE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015 (Continued)

(Amounts expressed in the United States Dollars unless otherwise indicated)

Component 4: Project Implementation

This is support of the PIU for effective implementation of the Project, through provision of goods, consulting services and training.

Cumulative expenditure amount of USD 1,898,545 regarding the technical assistance was reclassified from technical services under the Component 3 to technical services under the Component 1. The IBRD responded by "no objection" regarding this issue.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The Special-Purpose Financial Statements have been prepared on the cash basis of accounting in conformity with the International Public Sector Accounting Standards ("IPSAS") "Financial Reporting under the Cash Basis of Accounting" issued by the International Public Sector Accounting Standards Board of the International Federation of Accountants ("IFAC-PSC") and incorporate the principal accounting policies from the relevant World Bank financial reporting guidelines.

Other basis of preparation criteria

The Special-Purpose Financial Statements are prepared under the historical cost basis of accounting. Source funding and government contributions are recognized when the related cash is received or paid out on the Project's behalf. Expenditure is accounted for on the basis of actual disbursement of funds from the Project accounts.

Foreign currency transactions and translation

The Project uses the United States Dollar ("USD") as its functional currency for the following reasons:

- a) The IBRD's funding is received in USD;
- b) Majority expenditure are denominated in USD:
- c) Receipts from operating activities are retained in USD.

Balance sheet monetary items denominated in currencies other than USD have been translated into USD using the exchange rate of the Central Bank of the Republic of Azerbaijan ("CBAR") effective as at appropriate date. All income and expense transactions denominated in currencies other than USD are converted into USD using the exchange rate of the CBAR prevailing on the date of transaction.

On February 21, 2015 the CBAR devalued the Azerbaijani Manat (AZN). As a result, the official exchange rates of AZN to the USD fell to AZN 1.05 per USD, and the official exchange rate of AZN to the EUR fell to AZN 1.19 per EUR, i.e. by approximately 34% from the exchange rates at the effective date of devaluation.

On December 21, 2015 the CBAR introduced a floating exchange rate that resulted in one-time devaluation of AZN against USD and other major currencies by approximately 48%.

4. DESIGNATED ACCOUNT

The Recipient has established a Designated Account at a commercial bank acceptable to the IBRD in accordance with the Loan Agreement. Designated Account is established, managed, replenished and liquidated in accordance with the IBRD's "Disbursement Guidelines for Projects" and detailed arrangements agreed upon between the Recipient and the IBRD.

The Project maintains its Designated Account in USD with the Kapital Bank OJSC (located in the Republic of Azerbaijan).

6. METHODS OF DISBURSEMENT

The methods of disbursement used from the inception of the financing up to and including December 31, 2015 were as follows:

Advance – the IBRD may advance loan proceeds into the Designated Account of the Recipient to finance eligible expenditure as they are incurred and for which supporting documents will be provided at a later date.

Direct Funding – the IBRD may make payments, at the Recipient's request, directly to a third party for eligible expenditure.

Reimbursement procedure – the IBRD may reimburse the Recipient for expenditure eligible for financing pursuant to the Loan Agreement that the Recipient has pre-financed from its own resources.

Commitment procedure – the IBRD may pay amounts to a third party for eligible expenditure under special commitments entered into, in writing, at the Recipient's request and on terms and conditions agreed between the IBRD and the Recipient.

7. METHOD OF WITHDRAWAL

IBRD Designated Account

Designated Account is designated disbursement accounts of the Project to effect the payment of eligible expenditure, within defined limits, which do not require individual authorization from the IBRD. Available amounts were drawn down within the limits determined by the relevant loan agreement for the payment of eligible expenditure for sub-contractors from the Designated Account.

Project Account

The Project maintains a separate account where the Government funds are accumulated. The funds are further disbursed to sub-contractors based on the shares of expenditure to be incurred by each funding source.

Statement of expenditure ("SOE")

Under the SOE method, the Project forwards to the IBRD an application for reimbursement of payments already made using an application for withdrawal with SOE forms as the only documentation.

Cash in hand

During the reporting period, the Project management did not utilize cash in hand.

8. OPERATING ENVIRONMENT

The Project's principal business activities are within the Republic of Azerbaijan. Laws and regulations affecting the Project's operations in the Republic of Azerbaijan are subject to rapid changes and the Project's operations could be at certain level of risk due to changes in the political and business environment.
