SCHEDULE 1

Project Description

The objective of the Project is to improve integrated urban management, service delivery, and disaster emergency management in Western Area and secondary cities of Sierra Leone.

The Project consists of the following parts:

Part A: Institutional and Capacity Development in Integrated Urban Management

Institutionalizing and strengthening city and district councils in urban management capabilities that are critical for efficient revenue generation, planning, as well as delivery and sustainable management of resilient infrastructure and services, in particular:

1. Strengthening integrated urban planning and spatial Data Infrastructure, including: (a) preparation and implementation of spatial plans (*i.e.*, master, local plans, and planning schemes), and provision of training in urban planning; (b) technical assistance to building control functions; (c) reviewing and/or developing planning laws, strategies, and codes; (d) implementing a robust municipal spatial data infrastructure and related systems; and (e) creation and implementation of a digital platform for citizen engagement for city councils.
2. Upgrading urban property tax administration and system, including building the capacity of city and district councils, and provision of training for comprehensive upgrading of the municipal property-tax systems, *inter alia*: (a) carrying out property surveys to update the property tax database; (b) developing and upgrading an information technology (IT) system to house the property tax database and providing related training and capacity building; (c) conducting structured training in geographic information systems, property valuation, development control, and surveying; (d) developing systems to facilitate taxpayer billing and payments; and (e) carrying out taxpayer sensitization and outreach activities.

Part B: Resilient Municipal Infrastructure Investment and Urban Greening

Upgrading resilient municipal infrastructure and services at neighborhood-and city-levels, in particular:

1. Urban upgrading and greening, including: (a) designs preparation, construction supervision, and preparation of safeguards instruments; (b) carrying out the construction and rehabilitation of roads, drainage networks, footbridges, water and sanitation facilities, walkways, street and high mast lights, in the city of Freetown; (c) urban greening initiatives through a tree planting campaign; and (d) canopy

monitoring and asset management of the tree planting campaign, *inter alia*: (i) a remote (satellite-imagery-based) canopy monitoring system; and (ii) a field-based asset management.

2. Upgrading solid waste management in Western Area and secondary cities, including:
 - (a) carrying out a comprehensive solid waste management system investment in Western Area, *inter alia*: (i) carrying out the construction (including the design, build and supervision) of a modern landfill that will service the residents of Freetown and its neighboring Western Area Rural District; (ii) carrying out the construction and rehabilitation of waste sorting and recycling facilities (waste transfer stations); (iii) acquisition of transport and disposal equipment; (iv) provision of technical assistance to design a sustainable model incorporating the entire solid waste management value chain; and (v) support to the informal waste management to stimulate the recycling sector and provide livelihood alternatives for the existing dump sites, and closure of the existing landfill;
 - (b) upgrading of the ancillary infrastructure at the existing landfill and operational systems in Bo, *inter alia*: (i) the renovation of site ancillaries such as access road, perimeter fence and weighbridge at the existing landfill; (ii) the upgrading of the current vehicle maintenance facility; (iii) acquisition of transport and disposal equipment; (iv) carrying out an Environmental and Social Impact Assessment (ESIA), feasibility and design for the future upgrading of the existing landfill to restore clear access and create additional disposal capacity; (v) provision of training to City Council solid waste management workers; (vi) carrying out the preliminary studies for the design for the construction of the new landfill referred to in Part B.2(a) above; and (vii) development of environmental and social management instruments required for the landfill referred to in Part B.2(a) above; and
 - (c) improving solid waste management operational performance in selected secondary cities.
3. Upgrading markets in selected secondary cities, including carrying out comprehensive program of activities to upgrade of central markets in select cities, *inter alia*, designing, improvement and construction of market stalls, roofing, water and sanitation facilities, drains, electricity, and childcare centers.

Part C: Emergency Management Institutional and Capacity Development

Building the capacity of the national and local governments in emergency preparedness and response, in particular:

1. Strengthening early warning, emergency preparedness and response systems, including:
 - (a) improving the operations of incident command teams, *inter alia*: (i) acquisition of equipment; (ii) provision of training; and (iii) development of operational plans and procedures, and improvement of critical infrastructure and facilities;
 - (b) designing and operationalizing an integrated emergency management system, *inter alia*: (i) strengthening the National Disaster Management Agency; (ii) equipping the emergency operation centers; and (iii) building the institutional and technical capacity of Sierra Leone Meteorological Agency, and National Water Resources Management Agency to provide hydromet and early warning services; and
 - (c) provision of training and acquisition of tools to respond adequately to the specific needs of vulnerable persons, including those with disabilities during emergencies.

2. **Contingent Emergency Response Component**

Providing immediate response to an Eligible Crisis or Emergency, as needed.

Part D: Project Management

Strengthening the capacity of the Project Management Unit (PMU) and relevant ministries, agencies, departments (MDAs) and city councils for Project management and implementation, in particular:

- (a) recruiting Project staff, for project management, monitoring and evaluation, financial and technical audits and mid-term and end-project evaluations, environmental and social management, financial management, and procurement;
- (b) establishing and operationalizing a grievance redress mechanism for the Project;
- (c) enhancing advocacy, knowledge exchange and partnerships for sustainable urban development; and
- (d) supporting the implementation and management of environmental and social instruments.
