Implementation Status Overview
The performance of the project is 'Satisfactory' towards achievement of project development objective. The project has issued 264,787 CERs from commissioning in September 2008 till December 2011 and the availability of the plant has been consistently above 99%. The project has also taken due care to implement the environmental and social impact management measures included in its Environment and Social Impact Management Plan. Occupational Health and Safety (OHS) and Environment impact management are mainstreamed in project operations and are monitored regularly at corporate level.
