Program Description

I. Introduction and Background

A. The National Program for Community Empowerment (PNPM)

The National Program for Community Empowerment or PNPM is a national program of the Government of the Republic of Indonesia (GOI) for community empowerment aimed at accelerating poverty reduction. The goal of this program is to empower diverse rural and urban communities to actively participate in development. In this regard, the PNPM objective is to nurture the solidarity and cooperative spirit of the community to be self-sustaining.

Given the variety of other sectoral programs, PNPM provides an umbrella framework for all community-driven development programs in Indonesia. By consolidating these programs under a single framework, PNPM will create a unified design for program delivery, avoid overlapping and duplication of programs and activities, better national targeting for the poorest, and direct transfer of funds to villages for better utilization of poverty reduction efforts. To support PNPM and poverty alleviation related activities, the GOI established the PNPM Support Facility (“the Facility”). It is recognized that international development cooperation has an important role in supporting Indonesia to meet its goal in reducing poverty. Therefore, through the Facility, donors are providing coordinated technical assistance, planning advice and dialogue, as well as targeted financial assistance to the government in supporting PNPM.

B. The Facility

The Facility is a mechanism established by the GOI and donors to facilitate new modalities and institutional arrangements for providing support to PNPM. The purpose of the Facility is to establish a common platform to mobilize donor resources and channel financial assistance in support of the Republic of Indonesia’s efforts to reduce poverty through: (a) provision of strategic oversight of PNPM and related poverty reduction programs, and (b) coordination of donor-provided grant funds. The specific objectives of the Facility are:

a. To ensure better coordination across grants supporting PNPM;
b. To develop capacities at all levels to plan, manage and improve poverty reduction programs;
c. To reduce poverty through government and civil society partnerships; and
d. To support high quality monitoring and evaluation.

The Facility supports the objectives of PNPM by providing:

a. Global experience and expertise on poverty reduction.
b. A mechanism to improve the coordination and oversight of poverty reduction programs.
c. An objective platform to review, share and apply lessons across poverty programs.
d. An arena for high quality debate on solutions to poverty programs.
e. Technical and financial resources for evidence gathering and program development around poverty themes.
f. Windows for access to a range of donor programs and resources on poverty reduction.

Donors, which as of the date of this Grant include the United Kingdom of Great Britain and Northern Ireland, Australia, the Kingdom of Denmark, the Netherlands and the European Union, represented by the Commission of European Communities, support the Facility through contributions to the Facility Trust Funds administered by the World Bank, which funds are kept separate and apart from other funds of the World Bank.

The Facility is administered by the World Bank under the guidance of the Joint Management Committee.

The description above provides a brief overview of PNPM and the Facility as of the date of this Grant, it being understood that such arrangements may be changed with the approval of the Joint Management Committee.

II. Activities Funded Under the Facility

The Facility provides funding for the following activities:

(a) Provision of support for small infrastructure investment works, social services projects and other community-led poverty reduction activities, through co-financing of Bank and International Development Association operations, and other investments, including provision of block grants for the benefit of communities.

(b) Provision of grants to intermediary NGOs and other civil society groups which engage in poverty reduction activities at grassroots level to be on-granted to groups which provide special services to poor communities, or to develop the capacity of such intermediary NGOs or groups to engage in such on-granting activities.

(c) Provision of technical advisory services and other material assistance to agencies of the Republic of Indonesia to support their long-term capacity to engage in the long-term management of the PNPM.

(d) Provision of technical advisory services to support PNPM-related special studies and programs, including establishment and operation of a partnership office for harmonization and coordination of PNPM-related programs and technical advisory services, monitoring and evaluation activities, special activities, workshops and facilitated comparative studies, as well as activities in support of national and local government poverty reduction programs or to develop
the capacities of universities, think-tanks and other organizations likely to contribute to achievement of the purposes of the PNPM.

The USAID Grant shall be contributed to a PSF Trust Fund and used to support Facility activities, as may be approved by the Joint Management Committee in accordance with the established policy and procedures for the Facility as described more fully in the PNPM Support Facility Operations Manual as it may be amended from time to time by the Joint Management Committee. USAID will propose to the Joint Management Committee that the USAID Grant be principally used for activities described under sub-paragraph (a) above. In particular, to supplement community block grants under PNPM Mandiri Rural to poor sub-districts or kecamatans in selected provinces in Indonesia. The objective of this focus is to assist vulnerable populations in Indonesia, a country severely affected by the global financial crisis of 2008 and 2009.

Overall, it is expected that the funds provided under this Grant for block grants will lead to the increased generation of days of work, increased income multiplier effects in the poorest communities, and increased benefits to these communities from finished projects under PNPM Mandiri Rural.

A second proposed focus for use of the USAID Grant will be the activities in sub-paragraph (d) above, specifically improving the Facility’s and GOI’s systems to monitor, evaluate and report on PNPM.

III. The Governance Structure of the Facility

As specified in the Schedule (Attachment 1) to this Grant, the Grant funds shall be administered in accordance with the established policy and procedures for the Facility, including, but not limited to the PNPM Support Facility Operations Manual, as it may be amended from time to time with the agreement of the Joint Management Committee, and the World Bank’s policies and procedures for Trust Fund management and procurement. Provided below is a brief overview of the Facility governance arrangements as of the date of this Grant, it being understood that such arrangements may be changed with the approval of the Joint Management Committee.

The Facility management structure is under the coordination of the PNPM Oversight Body which is part of the Coordinating Team for Poverty Reduction. The Facility management structure consists of:

A. Steering Committee (Joint Management Committee (JMC))

The JMC is chaired by GOI’s National Development Planning Agency (Bappenas) and includes representatives of GOI agencies, the Bank as Trust Funds administrator and all donors with contributions of more than US$1 million equivalent. The JMC (i) provides overall policy guidance and review, (ii) promotes harmonization across all poverty programs, and (iii) decides funding allocation.
B. Technical Committee

The Technical Committee is co-chaired by Bappenas and the chair of the Technical Secretariat and monitors the Facility activities, discusses technical issues and prepares alternatives for the JMC.

C. Advisory Panel

The JMC may be supported by an Indonesian advisory panel that consists of experts in poverty reduction and/or community empowerment issues, selected by the JMC.

D. Technical Secretariat

The Technical Secretariat or Secretariat supports the JMC and the Technical Committee. The chair of the Secretariat is appointed by the JMC. The Secretariat administers funds received from donors in accordance with World Bank guidelines for trust fund management and applicable GOI procedures.

6. REVISION OF GRANT BUDGET (DEC 2003)

a. The approved Grant Budget is the financial expression of the Grantee’s program as approved during the Grant award process.

b. The Grantee must immediately request approval from the Agreement Officer when there is reason to believe that within the next 30 calendar days a revision of the approved Grant budget will be necessary for any of the following reasons:

   (2) To revise the funding allocated among program objectives by more than 10 percent of the total budget amount unless the schedule states otherwise.

The Grantee may not enter into any additional obligations under this Grant after receiving the notice of termination, other than those reasonably necessary to effect the close out of this Grant. Except as provided below, no further reimbursement will be made after the effective date of termination. Within 30 days of the effective date of termination, the Grantee must repay to the government all unexpended USAID funds that are not otherwise obligated by a legally binding transaction applicable to this Grant. To the extent the Grantee will use the funding provided by USAID under this Grant for the purpose of providing grants to recipients, the Grantee will include a provision in each grant agreement between the Grantee and each such recipient that the recipient:

(i) will not use the proceeds of the Grant for the purpose of any payment to persons or entities, or for the import of goods, if such payment or import, to the recipient's knowledge or belief, is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, including under United Nations Security Council Resolution 1373 and related resolutions, and
