**IV. Other Disbursement Instructions**

**Contingent Financing in the event of an Eligible Crisis or Emergency – Category 4**

Disbursements would be made to the Ministry of Finance and Planning to facilitate the use of critical resources in the event that an Eligible Crisis or Emergency is officially declared. Funds would be made available for disbursements once an alert or emergency has been declared and the Borrower complies with specific requirements agreed with the Bank, including a list of the expenditures for financing such as (i) critical emergency goods (e.g., imports, domestically-manufactured goods and goods already imported); (ii) rehabilitation activities, including civil works and related goods and services; (iii) cash grants to priority households in affected geographic areas; (iv) supplemental transfer to Conditional Cash Transfer (CCT) Programme for Advancement Through Health and Education PATH households; and (iv) provision of relief items to affected households and persons in shelter care, as further specified in the CERC Operational Manual and Attachment 6 to this Additional Instructions (Financing and Disbursement of Contingency Emergency Response Component)

Disbursement would be made through advances to the DA to MOFP up to an amount that does not exceed 25% of the aggregate amount of financing indicated in the Emergency Financing Plan, but limited to the total amount of the loan uncommitted balance, to cover defined expenses (Positive List) as described in CERC Operational Manual procedures.

The expenditures will be documented through regular IFRs plus List of Payments made for Social Safety Net transfers and Bank reconciliation showing amounts paid for SSN transfers as defined in Section III of this additional instructions.

The Ministry of Labour and Social Security payment and beneficiary systems will be used to identify eligible beneficiaries and make relevant payments for the cash grants and supplemental payments to eligible PATH beneficiaries. Other CERC activities will be made through the Borrower’s regular financial system and Project’s designated account.

The Borrower may pre-finance Emergency Expenditures required for the activities set forth in the Emergency Financing Plan in accordance with the provisions established in Section I., Part C, paragraph 1 of Schedule 2 of the Loan Agreement as of the date the emergency has been triggered. Reimbursements will be available after the Notification on Fulfillment of Disbursement Condition is submitted to the Government and Reallocation of loan proceeds is processed by the Bank. The total amount disbursed under Category 4 through both Disbursement Methods (Advances and Reimbursement) cannot exceed the total amount allocated to such Category.

Terms and Conditions of Use of Secure Identification Credentials in connection with Use of Electronic Means to Process Applications and Supporting Documentation

March 1, 2013

The World Bank (Bank)\(^6\) will provide secure identification credentials (SIDC) to permit the Borrower\(^7\) to deliver applications for withdrawal and applications for special commitments under the Agreement(s) and supporting documentation (such applications and supporting documentation together referred to in these Terms and Conditions of Use as Applications) to the Bank electronically, on the terms and conditions of use specified herein.

SIDC can be either: (a) hardware-based (Physical Token), or (b) software-based (Soft Token). The Bank reserves the right to determine which type of SIDC is most appropriate.

A. Identification of Users.

1. The Borrower will be required to identify in a completed Authorized Signatory Letter (ASL) duly delivered to and received by the Bank each person who will be authorized to deliver Applications. The Bank will provide SIDC to each person identified in the ASL (Signatory), as provided below. The Borrower shall also immediately notify the Bank if a Signatory is no longer authorized by the Borrower to act as a Signatory.

2. Each Signatory must register as a user on the Bank’s Client Connection (CC) website (https://clientconnection.worldbank.org) prior to receipt of his/her SIDC. Registration on CC will require that the Signatory establish a CC password (CC Password). The Signatory shall not reveal his/her CC Password to anyone or store or record the CC Password in written or other form. Upon registration as a CC user, the Signatory will be assigned a unique identifying account name.

B. Initialization of SIDC.

1. Prior to initialization of SIDC by a Signatory, the Signatory will acknowledge having read, understood and agreed to be bound by these Terms and Conditions of Use.

---

\(^6\) “Bank” includes IBRD and IDA.

\(^7\) “Borrower” includes the borrower of an IBRD loan, IDA credit, or Project Preparation Facility advance and the recipient of a grant.
2. Where a Physical Token is to be used, promptly upon receipt of the Physical Token, the Signatory will access CC using his/her account name and CC Password and register his/her Physical Token and set a personal identification number (PIN) to be used in connection with the use of his/her Physical Token, after which the Physical Token will be initialized for use by the Signatory exclusively for purposes of delivering Applications. Where a Soft Token is to be used, the Signatory will access CC using his/her account name and CC Password and set a personal identification number (PIN) to be used in connection with the use of his/her Soft Token, after which the Soft Token will be initialized for use by the Signatory exclusively for purposes of delivering Applications. Upon initialization of the SIDC, the Signatory will be a “SIDC User”. The Bank will maintain in its database a user account (Account) for each SIDC User for purposes of managing the SIDC of the SIDC User. Neither the Borrower nor the SIDC User will have any access to the Account.

3. Prior to first use of the SIDC by the SIDC User, the Borrower shall ensure that the SIDC User has received training materials provided by the Bank in use of the SIDC.

C. Use of SIDC.

1. Use of the SIDC is strictly limited to use in the delivery of Applications by the SIDC User in the manner prescribed by the Bank in the Agreement(s) and these Terms and Conditions. Any other use of the SIDC is prohibited.

2. The Bank assumes no responsibility or liability whatsoever for any misuse of the SIDC by the SIDC User, other representatives of the Borrower, or third parties.

3. The Borrower undertakes to ensure, and represents and warrants to the Bank (such representation and warranty being expressly relied upon by the Bank in granting SIDC) that each SIDC User understands and will abide by, these Terms and Conditions of Use, including without limitation the following:

4. Security

4.1. The SIDC User shall not reveal his/her PIN to anyone or store or record the PIN in written or other form.

4.2. The SIDC User shall not allow anyone else to utilize his/her SIDC to deliver an Application to the Bank.

4.3. The SIDC User shall always logout from CC when not using the system. Failure to logout properly can create a route into the system that is unprotected.

4.4. If the SIDC User believes a third party has learned his/her PIN or has lost his/her Physical Token he/she shall immediately notify clientconnection@worldbank.org.
4.5. The Borrower shall immediately notify the Bank at clientconnection@worldbank.org of any lost, stolen or compromised SIDC, and take other reasonable steps to ensure such SIDC are disabled immediately.

5. **Reservation of Right to Disable SIDC**

5.1. The Borrower shall reserve the right to revoke the authorization of a SIDC User to use a SIDC for any reason.

5.2. The Bank reserves the right, in its sole discretion, to temporarily or permanently disable a SIDC, de-activate a SIDC User’s Account or both.

6. **Care of Physical Tokens**

6.1. Physical Tokens will remain the property of the Bank.

6.2. The Bank will physically deliver a Physical Token to each Signatory designated to receive one in a manner to be determined by and satisfactory to the Bank.

6.3. Physical Tokens contain delicate and sophisticated instrumentation and therefore should be handled with due care, and should not be immersed in liquids, exposed to extreme temperatures, crushed or bent. Also, Physical Tokens should be kept more than five (5) cm from devices that generate electromagnetic radiation (EMR), such as mobile phones, phone-enabled PDAs, smart phones and other similar devices. Physical Tokens should be carried and stored separate from any EMR device. At close range (less than 5 cm), these devices can output high levels of EMR that can interfere with the proper operation of electronic equipment, including the Physical Token.

6.4. Without derogating from these Terms and Conditions of Use, other technical instructions on the proper use and care of Physical Tokens are available at http://www.rsa.com.

7. **Replacement**

7.1. Lost, damaged, compromised (in terms of 4.5, above) or destroyed Physical Tokens will be replaced at the expense of the Borrower.

7.2. The Bank reserves the right, in its sole discretion, not to replace any Physical Token in the case of misuse, or not to reactivate a SIDC User’s Account.

Jamaica Disaster Vulnerability Reduction Project: Financing & Disbursement of Contingency Emergency Response Component

A CERC is designed to disburse only after an emergency has occurred, or is about to occur. A disbursement condition for the contingent component should define the circumstances when the funds under the component will become available.

A CERC can finance the overall emergency response and/or specific emergency works, goods and services. The overriding aim of a contingent component is to improve the response and recovery capacity of the Borrower in case of an emergency.

Disbursement Conditions

CERC disbursement conditions are guided by OP 8.00 (Rapid Response to Crises and Emergencies), OP/BP 10.00 (Investment Project Financing) and Investment Project Financing Instructions, and should be outlined in the Financing Agreement.

Recommended conditions include:

- A clearly established causal relationship between the relevant emergency and the need to trigger the CERC in order to withdraw proceeds from the CERC Disbursement Category
- Prepare and submit an acceptable Action Plan of Activities for financing to the World Bank

How is it funded?

CERC is an integral component of the project, but receives only a small or no allocation at the time of project approval.

- In case of an emergency, funds can be re-allocated to this window from other components.
- In some cases, components from which the funds are transferred may become low-priority, or even obsolete, because of the emergency.
- In other cases, funding can typically be restored to components from which funds were transferred by provision of additional financing.

How is it disbursed?

1. For current Projects, including the proposed Jamaica Disaster Vulnerability Reduction Project, once triggered, the Task Team Leader prepares and sends a package as per the Investment Project Financing (IPF) instructions to the Country Lawyer and other Bank colleagues, as needed, for clearance and to Practice Manager for concurrence. Once cleared, the Country Director decides and sends notice to the Borrower. In this process, the Borrower would only need to send to the Team Lead the evidence of

---

1 The definition of emergency is used in accordance with OP/BP 10.00 paragraph 12, indicating a situation of Fragility, Conflict, Capacity Constraint, or Emergency (man-made or natural disaster). The parameters that constitute the requirements to trigger an emergency are predefined by the Borrower and Bank.

2 CERC's can be fully funded by commitment from IBRD, IDA (performance-based allocation), or trust funds, or designed as a contingent window, or a combination of both.
compliance to trigger CERC as established in the Loan Agreement and Project Operations Manual. This package will be prepared in advance and be left ready for processing, including Memorandum and Draft Notice to the Borrower.

2. Quick disbursements in the form of Advances would be allowed as soon as Step 1 is completed through Advances to the Project’s Designated Account. In this regard, there should be an agreement on a clear criteria to establish the ceiling for this Advance which will be based on the Emergency Financing Plan prepared by the Borrower and approved by the Bank. In order to expedite disbursements, the Designated Account ceiling will be increased up to 25% of the aggregate amount of financing indicated in the Emergency Financing Plan, but limited to the total amount of the loan uncommitted balance.

3. Reallocation of the loan proceeds among the categories to be processed by the Team through a Level II Project Restructuring (also Bank internal process) as soon as possible. Please note that initial disbursement would have already been made at this point.

4. The GoJ can use their own funds to finance any eligible expenditures as of the date that the emergency is triggered (the Manual should clearly define it) and once the Disbursement Condition is lifted and Reallocation completed (Steps 1 and 3 above), the GoJ can submit applications for Reimbursement and associated documentation of expenditures made with the advance (under Step 2).
