Project Description

The objective of the Project is to identify social and/or fiscal attributes of physical persons and legal entities in Argentina, through a sustainable information exchange system aimed at improving the efficiency, effectiveness and impact of social services and fiscal programs at the federal, provincial and municipal levels.

(b) Strengthening of SINTyS’ legal framework, through, inter alia: (i) the design of norms to supplement the current legislation which governs protection of personal information; (ii) the preparation of national legislation, which, once enacted, will oblige all Participating Public Agencies (at the federal level): (A) to exchange
social/fiscal information through SINTyS; (B) to provide SINTyS all relevant social/fiscal information; and (C) to prevent requesting social/fiscal information from citizens/legal entities if such information is already being collected and provided by the pertinent Participating Public Agency through SINTyS; (iii) the preparation of provincial legislation, which, once enacted, will oblige all Participating Public Agencies (at the provincial level): (A) to exchange social/fiscal information through SINTyS; (B) to provide SINTyS all relevant social/fiscal information; and (C) to prevent requesting social/fiscal information from citizens/legal entities if such information is already being collected and provided by the pertinent Participating Public Agency through SINTyS; and (iv) the preparation of supplementary legislation, which, once enacted, will strengthen the current national legal framework governing the use, dissemination and disclosure of information.

(c) (i) Continuation of the establishment of SINTyS provincial field offices in all Participating Provinces for purposes of replicating the SINTyS’ social/fiscal information exchange model in said Participating Provinces (to adapt the same to the pertinent provincial needs), and the on-line interconnection of said model among the same, so as to facilitate the exchange of social/fiscal information among Participating Public Agencies; and (ii) expansion, on a pilot basis, of the SINTyS model mentioned in (i) herein in Participating Municipalities operating within the jurisdiction of any given Participating Province (in which a SINTyS provincial field office has been established, and said SINTyS model has been replicated to adapt the same to the pertinent provincial needs) so as to facilitate the exchange of social/fiscal information among Participating Public Agencies.

SCHEDULE 3

Amortization Schedule

1. The following table sets forth the Principal Payment Dates of the Loan and the percentage of the total principal amount of the Loan payable on each Principal Payment Date (“Installment Share”). If the proceeds of the Loan have been fully withdrawn as of the first Principal Payment Date, the principal amount of the Loan repayable by the Borrower on each Principal Payment Date shall be determined by the Bank by multiplying: (a) Withdrawn Loan Balance as of the first Principal Payment Date; by (b) the Installment Share for each Principal Payment Date, such repayable amount to be adjusted, as necessary, to deduct any amounts referred to in paragraph 4 of this Schedule, to which a Currency Conversion applies.

2. If the proceeds of the Loan have not been fully withdrawn as of the first Principal Payment Date, the principal amount of the Loan repayable by the Borrower on each Principal Payment Date shall be determined as follows:

(a) To the extent that any proceeds of the Loan have been withdrawn as of the first Principal Payment Date, the Borrower shall repay the Withdrawn Loan Balance as of such date in accordance with paragraph 1 of this Schedule.

(b) Any amount withdrawn after the first Principal Payment Date shall be repaid on each Principal Payment Date falling after the date of such withdrawal in amounts determined by the Bank by multiplying the amount of each such withdrawal by a fraction, the numerator of which is the original Installment Share specified in the table in paragraph 1 of this Schedule for said Principal Payment Date (“Original Installment Share”) and the denominator of which is the sum of all remaining Original Installment Shares for Principal Payment Dates falling on or after such date, such amounts repayable to be adjusted, as necessary, to deduct any amounts referred to in paragraph 4 of this Schedule, to which a Currency Conversion applies.

3. (a) Amounts of the Loan withdrawn within two calendar months prior to any Principal Payment Date shall, for the purposes solely of calculating the principal amounts payable on any Principal Payment Date, be treated as withdrawn and outstanding on the second Principal Payment Date following the date of withdrawal and shall be repayable on each Principal Payment Date commencing with the second Principal Payment Date following the date of withdrawal.
(b) Notwithstanding the provisions of sub-paragraph (a) of this paragraph, if at any
time the Bank adopts a due date billing system under which invoices are issued
on or after the respective Principal Payment Date, the provisions of such sub-
paragraph shall no longer apply to any withdrawals made after the adoption of
such billing system.

4. Notwithstanding the provisions of paragraphs 1 and 2 of this Schedule, upon a Currency
Conversion of all or any portion of the Withdrawn Loan Balance to an Approved
Currency, the amount so converted in the Approved Currency that is repayable on any
Principal Payment Date occurring during the Conversion Period, shall be determined by
the Bank by multiplying such amount in its currency of denomination immediately prior
to the Conversion by either: (i) the exchange rate that reflects the amounts of principal in
the Approved Currency payable by the Bank under the Currency Hedge Transaction
relating to the Conversion; or (ii) if the Bank so determines in accordance with the
Conversion Guidelines, the exchange rate component of the Screen Rate.

5. If the Withdrawn Loan Balance is denominated in more than one Loan Currency, the
provisions of this Schedule shall apply separately to the amount denominated in each
Loan Currency, so as to produce a separate amortization schedule for each such amount.
