   (a) Continued development of Recipient’s government portal.

   (b) Equipping selected ministries and Provincial and District offices with basic information and communications technology infrastructure.

   (c) Strengthening of network infrastructure connecting ministries and selected Provincial and District offices and establishment / strengthening of a number of free-standing public access points at national and sub-national levels.

   (d) Establishment of maintenance and support infrastructure for information and communications technology applications.

   (e) Carrying out of training and capacity building activities, including business process engineering, in information and communications technology.

   (f) Provision of technical platform for rollout of Recipient’s public financial management system to selected District offices.

   (g) Establishment of pilot system for consumer use of mobile telephones for funds transfers and possibly bill payment.

All through the acquisition of goods such as information and communications technology equipment and special-purpose vehicles furnished with such equipment, carrying out of minor works, provision of technical advisory services and financing of Operating Costs.
2. Improvement of Service Delivery to Citizens and Private Sector

(a) Improvement of applications and services for citizens and private sector through:

(i) Provision of support to identification of specific services requiring improvement through use of information and communications technology and business process re-engineering; and

(ii) Provision of seed funding for implementation of innovative approaches to improvement of service delivery in key sectors such as health, education and agriculture through use of information and communications technology.

(b) Provision of support to creation and customization of information by key government services such as agriculture, education, environment and health and dissemination of said information to Districts and local communities through public access points established under Part 2 (c) of the Project or other means such as the internet, radio and brochures.

(c) Establishment and maintenance of public access points in urban as well as rural areas for availability of electronic services and information to public, including exploration of variety of kiosk models (public, private, public-private partnership) and mechanisms for care and feeding of kiosks and training of kiosk operators in technical, information technology and financial applications.

All through the acquisition of goods such as information and communications technology equipment, provision of technical advisory services and carrying out of Training.

3. Improvement of Service Access through Enhancement of Energy and Telecommunications Infrastructure

(a) Strengthening of Rwanda Utilities Regulatory Agency and its policy and regulatory framework through:

(i) Preparation and implementation of human resource development plan, including identification of staffing requirements and qualifications and training plans for existing staff, and carrying
out of specific training and study tour for Rwanda Utilities Regulatory Agency;

(ii) Design and implementation of database to map telecommunications networks (fiber optic, wireless, rural access, electricity grid); identification of access connectivity gaps and national / backhaul link needs; and assessment and rationalization of various national backbone initiatives (fiber optic, wireless, electricity grid);

(iii) Piloting of output-based approach for deployment of information and communications technology access infrastructure by private operators in selected public access points in remote rural areas, including provision of support to Rwanda Utilities Regulatory Agency for auctioning of licenses, including organization of road shows, packaging of tender documents and posting of advertisements; and

(iv) Carrying out of review of legal framework for investment in knowledge industries and preparation and promotion of e-legislation favorable to such investment covering intellectual property rights protection, privacy, electronic commerce, electronic and digital signatures, domain names and computer crime.

(b) Improvement of basic information and communications technology access infrastructure for select Provincial and District offices in rural areas through:

(i) Linking of selected Provincial and District offices in selected rural areas to telecommunications network; and

(ii) Carrying out of capacity building for Universal Access Fund for management of output-based approach mechanism for deployment of information and communications technology access infrastructure by private operators in selected rural areas and possible provision of seed capital to said Fund.

All through the provision of technical advisory services.
4. **Project Management**

   (a) Provision of support to the Project Implementing Entity and the Ministry of Infrastructure for Project management and implementation of related reforms.

   (b) Establishment of quality assurance mechanism for implementation of said reforms.

   (c) Organization of workshops and other feedback events for users of public services supported by the Project.

   (d) Development of monitoring and evaluation system for implementation of said reforms.

   All through the acquisition of goods such as information and communications technology equipment, provision of technical advisory services, carrying out of Training and financing of Operating Costs.
SCHEDULE 2

Project Execution

Section I. Subsidiary Financing; Institutional and Other Arrangements

A. Subsidiary Agreement

1. To facilitate the carrying out of the Project by the Project Implementing Entity, the Recipient shall make the proceeds of the Financing available to the Project Implementing Entity under a subsidiary agreement between the Recipient and the Project Implementing Entity, under terms and conditions approved by the Association, which shall include the following (“Subsidiary Agreement”):

   (a) The Recipient shall make the proceeds of the Financing available to the Project Implementing Entity on a grant basis.

   (b) The Project Implementing Entity shall perform all of its obligations under the Project Agreement.

   (c) Except as the Association shall otherwise agree, the Project Implementing Entity shall: (i) carry out the Project, or cause the Project to be carried out, in accordance with the Project Operations Manual and the Project Implementation Plan (provided, however, that in case of any conflict between the arrangements and procedures set out in the Project Operations Manual or Project Implementation Plan and the provisions of this Agreement, the provisions of this Agreement shall prevail); and (ii) not amend, abrogate, or waive, or permit to be amended, abrogated or waived, the aforementioned, or any provision thereof, if such amendment, abrogation or waiver may, in the opinion of the Association, materially or adversely affect Project implementation.

   (d) Procurement of the goods, works and services required for the Project shall be governed by the provisions of Section III of Schedule 2 to this Agreement, as said provisions may be further elaborated in the Procurement Plan.

2. The Recipient shall exercise its rights under the Subsidiary Agreement in such manner as to protect the interests of the Recipient and the Association and to accomplish the purposes of the Financing. Except as the Association shall
otherwise agree, the Recipient shall not assign, amend, abrogate or waive the Subsidiary Agreement of any of its provisions.

B. **Institutional Arrangements**

1. Without limitation upon the provisions of paragraph 4 of this Section, the Recipient’s minister at the time responsible for communications shall be responsible for strategic and policy oversight of the Project.

2. Without limitation upon the provisions of paragraph 4 of this Section, the Project Implementing Entity’s Board of Directors and Management Team shall be responsible for technical oversight of the Project.

3. The Recipient shall maintain, throughout Project implementation, the Project Implementing Entity in form and substance and with resources and functions satisfactory to the Association, including the staff referred to in the following paragraph.

4. The Recipient shall cause the Project Implementing Entity to: (i) maintain, throughout Project implementation, the staff referred to in Section 5.01 (b) of this Agreement, all with qualifications, experience and terms of reference satisfactory to the Association; and (ii) recruit, no later than one month after the Effective Date, and maintain, throughout Project implementation, an information, education and communication specialist, a monitoring and evaluation specialist, a private sector development specialist, a technology officer, and other necessary staff, all with qualifications, experience and terms of reference satisfactory to the Association.
